ELOPERS CAUGHT.

World-Wide Hunt Ends in Chicago.

Roberta de Janon and Waiter Living as Daughter and Father.

Girl and Married Man Are Arrested; Former Is Unharmed.

Heiress Begs to Be Taken to Father; Defends Her Companion.

(Associated Press Night Report.)

CHICAGO, Jan. 10.—Living as father and daughter, Roberta de Janon, the 17-year-old heiress, and Frederick Cohen, aged 42, and married, a waiter at the Bellevue-Stratford Hotel in Philadelphia, who eloped December 23 from Philadelphia, and for whom a world-wide search was instituted, were found and arrested here late today.

They were discovered by detectives in a rooming-house. When policemen entered the house, Miss de Janon was playing with her pet dog which she took with her in her sensational disappearance, while Cohen was seated in an adjoining room reading.

They were taken to the Chicago Avenue Police Station. Cohen, at first protested against arrest. He soon admitted his identity, however, and Miss de Janon, sobbing bitterly, pleaded with the authorities to restore her to her parents.

Cohen revealed to the officers the story of his flight with the girl from Philadelphia, a flight extending for thousands of miles through the United States and Canada, and in which a trip to England was interrupted at Halifax because the best authorities would not permit the presence of Miss de Janon's pet dog on the vessel.

AN ELOPER AND DAUGHTER. At least that was Cohen's explanation of the abandonment of the sea voyage which began at St. John, N. B., but the police believed they planned to leave the boat at Halifax in order to elude the detectives.

Cohen and Miss de Janon arrived here Thursday and rented a room in a boarding-house. Cohen introduced the girl as his daughter Alice. He identified himself as Robert King, and said he was a barber, and that he had just arrived from Montreal in search of work.

The girl when questioned by the officers after she had admitted her identity, said that she and Cohen had reached Chicago with but \$1.60 between them, and that she gave Cohen a necklace, which he pawned to get money for them to live on. Their apprehension followed a report to the police in the afternoon by the landlady, who had seen pictures of the eloping pair in the newspapers.

Cohen was tonight locked up at the Chicago Avenue station. He said he would waive extradition proceedings, and the Philadelphia police were notified to come for the prisoners.

CLINGS TO DOG. Miss de Janon and her dog were taken to the woman's department of the Harrison-street Police Station. Cohen denied any harm had come to Miss de Janon since she fled with him.

The elopers went to New York City December 23, remaining there only a few hours. They boarded a train for Montreal. In Montreal they took a train for St. John, N. B., where they boarded a steamer from England.

Oakland Wood Chopper Awakes. Protests Against Obsequies and Will Recover.

(Associated Press Night Report.)

SAN FRANCISCO, Jan. 10.—While the morgue wagon stood outside his door awaiting to convey his body to the undertaking parlors, J. Anderson, an Oakland wood-chopper, awoke from what the doctors thought was the sleep of death, today, and protested against the obsequies. He was rushed to the hospital, pulseless, and after stimulants had been administered he began to revive. He may recover. It is thought that Anderson was suffering from a stroke of apoplexy.

Mrs. Kennedy Pays on \$5,000,000. Next Highest Gotham Taxpayer Being Carnegie, With \$5,000,000. Morgan and Astor Place Personality at \$4,000,000—Several Over Million.

(By Direct Wire to The Times.)

NEW YORK, Jan. 10.—[Exclusive Dispatch.] The city's tax books for 1910, which were made public today, show that as a general rule the wealthy women of New York are assessed for much larger sums in personal property than the wealthy men are, although the latter are reputed to possess far greater wealth.

Mrs. Emma B. Kennedy, widow of John Stewart Kennedy, has a personal property valuation of \$5,000,000, after her name. This is \$1,000,000 more than the valuation of the personality holdings of Andrew Carnegie, which are placed at \$4,000,000.

Mr. Carnegie's holdings are the largest, according to the tax books, of any of the wealthy men.

Mrs. Russell Sage, widow of John D. Rockefeller, has a personal property valuation of \$4,000,000, and Mrs. J. P. Morgan, \$3,500,000.

Other wealthy women named in the list are Mrs. J. D. Rockefeller, \$3,000,000; Mrs. J. P. Morgan, \$2,500,000; Mrs. J. D. Rockefeller, \$2,000,000; Mrs. J. P. Morgan, \$1,500,000; Mrs. J. D. Rockefeller, \$1,000,000; Mrs. J. P. Morgan, \$500,000.

ALL BARS ARE OFF.

King Dissolves Parliament.

Sunday Rest Enables English Orators to Fight With Added Fire.

Intense Activity of Peers Wins Admiration, But Little Tolerance.

Are Deserving of Lloyd-George Nickname, "The House of Fears."

(By Direct Wire to The Times.)

LONDON, Jan. 10.—[Exclusive Dispatch.] King Edward today, with a flourish of his pen, dissolved Parliament, and thereby gave the word for general hostilities all over the kingdom in the fierce and record-breaking campaign.

Refreshed by the respite over Sunday, all the speakers today and tonight resumed their strenuous work. Orators in the present campaign must not only be prepared to answer immediately all questions—and there are many—but they must show agility in dodging missiles, or, if necessary, descend from the rostrum and mix it with some belittling constituent.

Premier Asquith tonight issued an address to the East Fife electors, but it was a tame, dispassionate statement, a scholarly defense of the budget, and has dates fixed up in disgust. He had not been able to find the missing explorer within the city limits.

The Marshal had an attachment, signed at the request of E. C. Crowley, lawyer, by Municipal Justice Moore. The claimant is Miss Rose Webber, head of the Interstate Republican Club. Legislative work is her specialty.

Miss Webber made affidavit today that Dr. Cook owes \$90 and interest to her, and that she does not know where he is. Other creditors are appearing. Walter Lonsdale, who took a copy of Dr. Cook's records to the Senate tomorrow, wants to be paid for his services.

Everywhere the suffragettes are unusually active, securing their opportunity in the general disorder and unrest.

PEERS PARTICULARLY BUSY. On all hands the intense activity of the peers as campaigners is commented upon. Never before in the memory of man has an election issue brought out into the open so many notable names.

As a campaigner Lord Willoughby de Broke easily heads the list. His lordship has addressed four meetings, and has dates fixed up to the very day before the polling begins. The Duke of Norfolk has already addressed seven meetings, and has two more on his list. Lord Cawdor and Lord Ridley have spoken at twelve meetings each, and have each two more on their list. Lord Curzon has addressed six meetings, and Lord Manners will have spoken seven times before the election.

These are the principal noble orators, but not the only ones. Every borough, county and district borough has had and has peers out on barrel heads speaking for the privileges of the lords, for the church and the constitution.

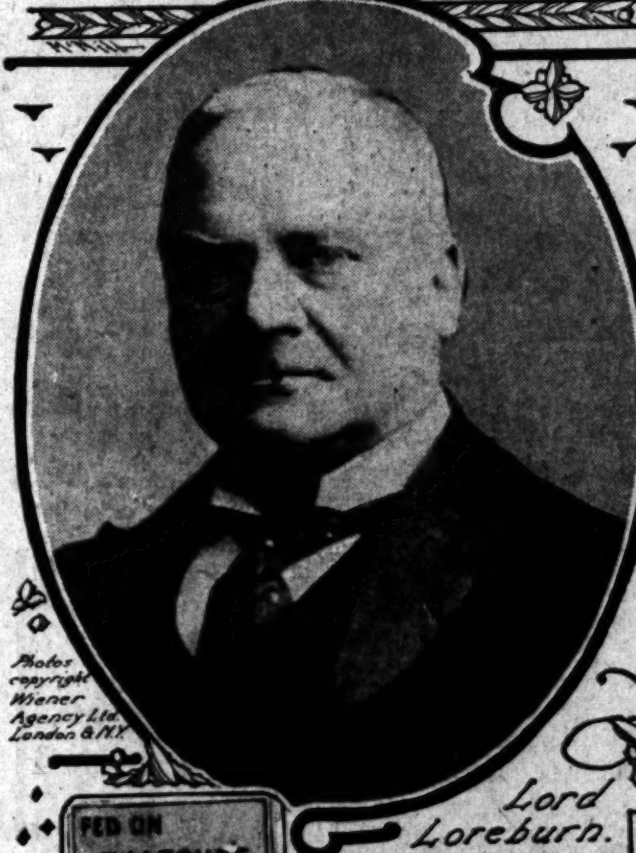

The opposition orators have warned the people that if the budget is introduced at the election the whole country will go to complete and irrevocable ruin. This was the note they sang the loudest in the beginning of the campaign at least, but toward the end, upon advice from headquarters, the peers leaned more gingerly on the ruin aspect of things as being altogether too ridiculous.

Glad of the chance to get away from discussion of the tax upon unearned land values, the majority of them have been emphatic on the protectionist programme and on the wages of the workman.

LANDLORDS SHIRK TAX TOPIC. In short, the discussion of land tax is a sore point with the great landlords. The principle that nobody wants to pay taxes works out beautifully.

COUNTRY IS SOLIDLY BACK OF PRESIDENT.

Expected Upheaval After Pinchot Dismissal Resolves Into Calm Approval of Executives Course—Tide of Popularity Setting Taftward.

(By Direct Wire to The Times.)

WASHINGTON, Jan. 10.—[Exclusive Dispatch.] Members of the administration said today that President Taft and all his associates are feeling good over the reception which last Friday's special message has had in the West, and in fact, throughout the country. They believe there has been a turn in the tide and that from now on the President and his administration will steadily gain in popular favor.

President Taft and his friends are gratified to learn that the country has received with such fairness of judgment the dismissal of Forester Pinchot. It is known, as I have several times pointed out, that the administration lived in dread of that crisis. Everything possible was done to avert it. There was great fear of the political consequences. But when it did come, when it was dramatically forced because Mr. Pinchot was "playing for his release," and because, perhaps, he unconsciously exaggerated his position to the sum total of things, the President and his advisers half expected the heavens would fall round about them. To their surprise and delight the country receives the tidings very calmly.

The public attitude as interpreted here is that it was absolutely necessary to remove Pinchot, that all his services are recognized, that the cause he represented shall not suffer, that there is no "Roosevelt conspiracy" behind the Pinchot affair; certainly none worth a moment's consideration. What the effect upon the public opinion eventually will be is another question, not to be answered for a long time yet.

During the present week it is the intention of the President to send to Congress his special message on the conservation question, with an out-

line of the laws he wishes to have passed for strengthening the power of the government to protect and preserve the national resources. The President's friends predict that when this practical plan is made known the country will conclude that, however much to be regretted is the loss of Mr. Pinchot from the government service, the cause he has so nobly served is not to be permitted to suffer.

Belief is firm that the country has already begun to take a more kindly view of Mr. Taft and to regard him as earnest and sincere in his determination and efforts to carry on true reform policies. It is proper to add that the friends of the President predict that he will gain still more in popular esteem when the country learns that he has not only proposed reform legislation, but is going to get it.

HAS WORKED WONDERS. To take the leadership of a party whose chief executive manipulators were avowedly tory and force them and the party to follow him in legislation which his predecessor could not secure, is regarded here as a notable achievement by Mr. Taft. True, it is not yet done; but it is on the programme. Direct and positive promises have been made, and it is safe to assume that the administration railway control bill, which was presented in the House today by Representative Townsend of Michigan, will become a law before Congress adjourns.

Another of Mr. Taft's achievements, say his friends, is to bring forward such a large and rather drastic scheme of railway control by Federal agencies, and secure for it, not only the assent, but the willingness of the railway managers and financiers to let it go through.

If, five or ten years ago, any one had predicted that in 1910 "the inter-state" would oppose with all their power a scheme to give the Interstate Commerce Commission power to adjust

ARMY OF A INVASION

Insurgents Face Bitter Fight.

Taft Republicans Will Force Near Democrats in Line or Beat Them.

Middle West Where Irregular Members Hold Fort Is Battlefield.

Spellbinders to Expose President's Enemies to Their Constituencies.

(By Direct Wire to The Times.)

WASHINGTON, Jan. 10.—[Exclusive Dispatch.] An army of speakers recruited from among the best campaigners and stumpers in the regular camp is to be thrown out into the territory now controlled by the insurgents, in the hope that it may be repulsed.

Arrangements are now being completed by the Republican Congressional Committee to follow up its campaign of circulating through the mails literature written to discredit the insurgents at home by placing on the lecture platform in the insurgent districts spellbinders who will speak out in meeting and tell constituents how disloyal they have been to the party by sending to Washington Congressmen who would not support the administration.

The Republican Congressional Committee, believing that the sentiment of the Middle West in favor of progressive ideas has been created from Chautauqua platforms, and is due to the neglect of the regulars, who have not contested the territory with Senators Cummins, La Follette, Brewster and others, have reached the conclusion that the best ground may be recovered if the people are given an opportunity to hear the other side.

Iowa, Wisconsin, Missouri, Minnesota, Kansas and Nebraska are the States selected for the tour, and the stamping grounds of the army of speakers.

The chasm between the regulars and insurgents is widening. The tactics of those in charge of the regular organization is surrender or extermination. Having branded the insurgents as no better than Democrats, these managers, with a view of pursuing enemies on the administration, intend to use against the insurgents every power within their command.

CLASSED WITH DEMOCRATS. With patronage withheld from them, with circulars issued by the Republican Congressional Committee classifying them with the Democrats and withdrawing support from them, the insurgents are asked to return to the Republican ranks.

With the invitation to the caucus comes the announcement that the whole of the regular Republicans has stricken the names of the insurgents from the party rolls, and will, in the future, when party measures are pending, not attempt to snail their support.

The most annoying feature of the proclamation today by the Republican Congressional committee is the claim that it was submitted to and endorsed by the President. The insurgents will send, if present plans are followed, a committee to ascertain from the President his attitude. If support of the administration policies is to be the real test the insurgents would be sure to suspend of judgment until the policies of the administration have been brought to a vote in Congress.

The insurgents in self-protection are organizing a representative body. Rod Hayes of California is chairman of their caucus, and Representative Nelson of Wisconsin their vice. The latter was chosen today, and besides keeping track of the squad, will keep a record of recruits, so that the actual strength of the opposition to the President may be known from day to day.

PEOPLE ARE AROUSED. That the people of the country are thoroughly aroused is evidenced by the mail reaching Congressmen. Letters are coming in from influential constituents urging some of the best-known insurgents to get into line. It is surprising the opposition evidenced to the insurgent movement in these communications.

Developments in the Senate today disclosed a literary bureau conducted under the guidance of the insurgents in that body. Senator Dick of Ohio was much incensed by the receipt from a number of Republican editors of a State of copies of a letter signed in facsimile with the signatures of Senators Cummins, La Follette, Clapp and Brewster, which Wright A. Patterson of Chicago, editor of the Western Newspaper Union, is sending out. The letter, under date of December 15, expresses the pleasure of the Senators to know that Patterson had arranged with John J. Hannon, who is Senator La Follette's secretary, to furnish a daily and weekly Washington letter written from the standpoint of a progressive Republican.

The managers of the Senate today so amended the Senate resolution providing for an investigation of the Hanger-Pinchot controversy that another ballot would not be precipitated in the House.

CHECKERS GO

Frauds Case.Each Gets One Year to
Blackwell Island.Motion for Stay of Execution
Is Denied.

(ASSOCIATED PRESS NIGHT REPORT.)

NEW YORK, Jan. 10.—Four former employees of the American Sugar Refining Company, convicted of underweighing frauds, were sentenced to one year's imprisonment each by Judge Martin in the United States Circuit Court here today.

The men sentenced are Charles Kenyon, Edward A. Boyle, Patrick J. Hennessy and John M. Coyle.

The four were checkers on the docks of the sugar company in Williamsburg, where it was discovered that the scales used to weigh sugar imports had been tampered with. As a result the American Sugar Refining Company reimbursed the government to the extent of more than \$2,000,000 for evaded duties, and employees of the company were indicted for conspiracy.

Spitzer, convicted Oliver Spitzer, the dock superintendent, and the four men sentenced today. There was disagreement over the case of James F. Henderson, the cashier of the refinery, one of the defendants.

Spitzer collapsed in court on Saturday, when a motion for a new trial for the men was argued, and it was found that he would have to undergo a slight operation for an internal disorder.

SENTENCE IS WITHHELD.

For this reason Judge Martin today did not pronounce sentence upon him, but remanded him until February 1.

Before sentencing the men the court denied a motion for a new trial. He took into consideration, however, the jury's recommendation for mercy, and said he would impose on each of the four men a sentence of one year in the Blackwell Island prison.

In sentencing the checkers, Judge Martin intimated that he might have shown greater leniency if the men had appealed to the court "for mercy and in a spirit of penitence."

"However," said the court, "such is not their position. They challenged the verdict; they deny their guilt."

Judge Martin denied a motion for a stay of execution.

PLEADS NOT GUILTY
TO STEALING LETTER.

(ASSOCIATED PRESS NIGHT REPORT.)

NEW YORK, Jan. 10.—Thomas P. Kelly, special investigator of the Interstate Commerce Commission, pleaded not guilty today to a charge of having taken and published without authority a letter written by Attorney General Wickersham bearing on the American Sugar Refining Company prosecution. Kelly, who had spent Sunday in the Tombs following his arrest on Saturday, was brought in handcuffed to an Italian counterfeiter.

United States Circuit Judge Hough fixed bail at \$3000.

The letter alleged to have been taken by Kelly subsequently appeared in a magazine with other documents printed in this connection. It alleged to have been taken from the office of United States Dist. Atty. Wise in the Federal building here. Copies had been made of the documents and the originals returned to the files.

SUGAR COMPANIES TO
SETTLE DIFFERENCES.

(ASSOCIATED PRESS NIGHT REPORT.)

PHILADELPHIA, Jan. 10.—The suit of the Pennsylvania Sugar Refining Company against the American Sugar Refining Company was officially ended today when Judge Wilson and Auditor General Wickersham handed down a decree in Common Pleas Court authorizing George H. Earle, Jr., receiver for the local concern, to accept the terms of settlement offered by the American Sugar Refining Company.

The bond holders of the Pennsylvania company will receive \$100,000 in cash and a note held against the local plant by the American company for \$1,250,000, to be surrendered with its accompanying collateral, and the plant of the Pennsylvania company.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Jan. 10.—(Exclusive Dispatch.) Miss Margaret Leavitt, 25 years old, worth \$1,000,000 in her own right and the youngest daughter of G. Howard Leavitt of Pittsburgh and Bayide, who has a few millions to leave to his children, eloped last Thursday with Joseph Smallen, formerly chauffeur for James J. Corbett, the pugilist, and lately chauffeur for the Leavitt family.

Smallen is four years his wife's junior, and also lives at Bayide, where he is known as the "Candy Kid," on account of his good looks. His mother keeps a laundry. The elopers were married in Jersey City. It is understood by a German Lutheran minister at his residence.

Papa-in-law Leavitt is an automobile enthusiast and keeps several expensive cars in his garage. Last summer his daughter, Margaret, decided she would like to have an automobile of her own and her father gave her one, engaging Smallen to drive it for her.

Miss Leavitt's interest in automobile-bling increased and about Thanksgiving her father came to the conclusion that she was more interested in Chaffeur Smallen than he liked to have her, so he got Smallen a job as demonstrator for the Pierce-Arrow cars in Manhattan.

The upset of the matter was that Miss Leavitt left her home last Thursday morning. She was Mrs. Smallen before noon.

From Halifax they returned to Boston by rail and left for Chicago.

In the possession of Miss De Janon the police found several letters, some addressed to her parents, and one written to her by Cohen, dated December 14, 1909, which followed:

"My Dear Roberta: After thinking the matter over thoroughly, I came to the conclusion, having nothing but your welfare and future happiness in mind, to show you really the best time since I have known you how honest my love for you is by advising you not to make the step which you will later regret, and which will disgrace you and make you unhappy in the future."

"Think matters over and weigh everything conservatively and you will find out that my motives toward you are as pure and honorable as only a man can be toward a girl he really and devotedly loves. To take you away from here just to gratify a whim, regardless of the disastrous consequences to yourself, would show me up only as a coward and not worthy of having the love of such an angel as yourself."

LETTER TO FATHER.

The letter, unsigned, was written on stationery of the Bellevue-Stratford Hotel and was mailed to Miss De Janon at her grandfather's address in Philadelphia.

A letter written by Miss De Janon to her father, Ferdinand de Janon, a broker of New York City, which she had not yet mailed, was also found. It read:

"Saturday, Jan. 8, 1910.
"My Dear Father: I can't tell you how much longer I am to have caused you and grandpa so much worry and trouble, but I went away because I did not want to go out to stay in Philadelphia. As I could not go myself, I persuaded Fred to go with me, as he has always been kind and good to me, but before leaving he swore on mamma's grave that he would never wrong me in any way, and that he would treat me as though I were his daughter. He has proved himself a gentleman, for he has kept all his promises, and I can only speak in the highest terms for him, for he is a good-hearted man. It is all nonsense for them to say that I was in love with him, for that is not so. I only cared for him as a dear, old friend. If we are caught, I am going to kill myself, as I could not bear to go back again. Please, papa, take 'Tootsy' (meaning her pet fox terrier) and always keep her with you. Be kind and good to her, and take the best care of her. Now, please grant me that one favor. Please forgive me, and try to think kindly of me, also ask Mrs. Cohen to please forgive me, as I did not realize what trouble this thing would bring when I coaxed her husband to go away with me. Please don't prosecute Fred. Be thankful to him for the beautiful way he has treated your daughter. It was all my fault. Good-by, dear papa, and grandpa."

"P.S.—Don't forget about Tootsy."

When the effects of Miss De Janon were examined tonight, forty-two letters were found, forty of which were written to Cohen and two to her father, one on January 3 and the other January 5. In the former, she said: "This is to certify that I, Roberta de Janon, have left my home at the Bellevue-Stratford in Philadelphia, my own accord, and I also declare that I asked Fred Cohen to take me with him and, after refusing several times, he finally consented to take me as his daughter—today is the sixth day since leaving home, and Fred has treated me just as if I were his own daughter."

Her father, Ferdinand de Janon, a New York stock broker, received several letters from her that day, which she announced she was going to commit suicide by drowning, because she could not bear to live after the death of her mother.

The wife of Frederick A. Cohen, a waiter, 43 years old, who had served Miss De Janon's meals at the hotel, reported her husband also was missing, and produced a letter in an affectionate nature that she alleged was from Janon sent him. The suicide theory was then abandoned and search was instituted for the missing couple.

USES JAIL AS TEACHER.

Millionaire's Bad Son Spends Months in Jail—Eloped With Seattle Married Woman.

(BY DIRECT WIRE TO THE TIMES.)

ST. LOUIS, Jan. 10.—(Exclusive Dispatch.) To teach him a lesson, wealthy relatives left James P. Thomas, son of a millionaire, in the St. Louis jail three and a half months. The charge of obtaining money on false pretenses was dismissed today, with the statement that Thomas's relatives had settled the matter and there would be no prosecution.

The relatives, it is believed, intended for him to settle the matter, but deferred doing so in order to keep the young man in jail. Thomas is the son of the late H. H. Thomas, dynamite manufacturer of Battle Creek, Mich. He worked until last fall in the office of the Aldrich-Vreeland Company, his father's business.

The couple came to St. Louis, and young Thomas paid his bill at the Southern Hotel with a check on his bank. In the same manner he paid a dry goods bill incurred by the woman. Finding he had no funds in the bank, the hotel people traced him to Kansas City, through a Japanese spaniel which the woman carried.

The woman was brought back. The woman went home and is now being sued for divorce.

ALL BARS OFF.

with the lords, who pay an income tax and little else. The taxes from lands have always been an insignificant factor in the British national revenue.

Of the tremendous annual income of the United Kingdom, land contributed in 1907, only \$3,350,000, and the revenue from land tax has progressively decreased year by year since 1880, when it was considerably upwards of \$5,000,000. England blooms like a garden, but this garden pays no taxes. Vast tracts of land which he unused, except for the pleasure of the lordly owners, pay no taxes whatever.

The proposal of the budget champions to tax this land on the value it would have if it were thrown upon the open market is the punctum saliens in their amazing activity in the present unparalleled campaign. Admirable, even to their opponents, has been the bold front they have presented. The peers have fought for their ancient privileges, never questioned until now, with the geometrical unbrokenness of a Macedonian phalanx.

DESERVE THEIR NICKNAME. Dodging the issue, they have appealed to the well-known love of Britons for their ancient social traditions and have asserted in all sobriety that the lords have been the only friends the poor have had since the general rate has been a justification of Lloyd George's apt nickname for them, "the House of Peers."

Anybody that takes a fling at Germany is grateful for the care of the British workman, but it is notable that wherever such phrases as "the rapacity of the dukes" or "the predatory lords" have been used in public speaking they have been received with peculiar popular pleasure, manifested by groans or uproarious applause.

England has had its "billboard" and its "yellow press," and its election as well as its country. Through out the empire political cartoons have been posted on every available space by the Unionist and Liberal parties, depicting in most vivid form the issues of the opposing forces and with which both parties are working to bring about victory. One of the lithographs which has attracted the most comment shows a trade stalker through the land as a reaper of death, whose activities bring widespread unemployment.

OBITUARY.

Col. Michael Shaughnessy.

SALT LAKE CITY (Utah) Jan. 10.—Col. Michael Shaughnessy died in this city yesterday.

He had been ill with pneumonia. Shaughnessy was born in Iowa, 53 years ago. He served with a New York regiment during the Civil War, and was wounded at Gettysburg.

After the war he became a clerk of the United States Court, and afterward United States Marshal in Mississippi. While in the latter office, it is said, he became involved in a controversy with Governor Lamar of Mississippi, which led to an exchange of shots on the field of honor. The duel was bloodless.

It was this that caused Shaughnessy to leave Mississippi and accept the United States Marshalship in the Territory of Utah, by appointment of President Hayes in 1875. Making a fortune in mining, he returned to Utah, where he was engaged in mining in Utah. Walter D. Shaughnessy, American Consul at Aguas Calientes, is a son, and Miss Mary Shaughnessy of New York a daughter of the deceased.

His other children are Philip S., an engineer at Panama, and Mrs. Frank Van Horn of New York.

George Francis Brown.

CHICAGO, Jan. 10.—George Francis Brown, retired from the Pullman Company, of which he formerly was treasurer, died yesterday at the Calumet Club.

His death was not unexpected, he having suffered a long time from heart trouble, which forced his retirement from active business two years ago. Mr. Brown was born in Chicago, October 1, 1842. When he entered the Pullman Company, in 1871, he was its first vice-president, general superintendent, and became general superintendent in 1890. Five years later he became general manager.

FOR all this week we will sell our 12-year-old sweet and dry wines, regular \$1.25 per gallon, for \$1.00 per gallon. All orders for delivery, Ed. Gorman Wine Co., 305 South Main street. Home 1019, Main 519.

or veto all proposed increase of railway rates, he would have been thought crazy. The railroads do not like this part of the President's proposal, and the theory for several days past, arrived here today on his way to Washington, D. C., where he is expected to appear before the committee investigating the Alaska land case.

No one claims all of this great step forward is due to the leadership of President Taft. Most of it is to be ascribed to the change that has come the view of men of affairs to the onswep of the movement begun during the late administration.

GLAVIS ANTICIPATES INVESTIGATION CALL.

(ASSOCIATED PRESS NIGHT REPORT.)

PORTLAND (Or.) Jan. 10.—L. B. Glavis, former Chief of the Field Division of the General Land Office, who has been sojourning in the White Salmon country, 125 miles east of Portland, for several days past, arrived here today on his way to Washington, D. C., where he is expected to appear before the committee investigating the Alaska land case.

Glavis flatly refused to make any statement for publication regarding the Hallinger-Pinchot controversy, nor to anticipate a trial service by presenting himself at Washington. He will go to Washington tomorrow.

DIVINE TO WED EX-ACTRESS.

Leading St. Louis Actor Will Marry Miss Pullis, Formerly Star of Broadway.

(BY DIRECT WIRE TO THE TIMES.)

ST. LOUIS (Mo.) Jan. 10.—(Exclusive Dispatch.) The engagement of the Rev. Dr. Edmund Duckworth, rector of St. James Episcopal Church, to Miss Pullis, formerly a Broadway actress, was announced in a few days.

Miss Pullis is the daughter of Mrs. A. E. Pullis, both of whom were prominent in the dramatic world, and she was married to a prominent actor. She was married to a prominent actor, and she was married to a prominent actor.

The romance, which is of considerable interest to both sides, is the story of Dr. Duckworth among the city clergymen and the dramatic reputation of Miss Pullis, grew out of their sympathetic interests in church affairs.

Miss Pullis was known here and in the East for her serious achievement in the legitimate drama.

Dr. Duckworth is a widower, and has grown children.

DISCUSS PINCHOT'S REMOVAL.

Live Stock Men Believe That the Administration Will Adhere to Broad Policy of Conservation.

(ASSOCIATED PRESS NIGHT REPORT.)

DENVER, Jan. 10.—What effect the removal of Gifford Pinchot as Chief Forester of the United States, will have on the national policy of conservation of resources, is a topic of discussion among delegates arriving for the thirteenth annual convention of the American Livestock Association, which opens tomorrow for a three-day session.

While there is a wide difference of opinion regarding details, general opinion is that the administration will adhere to the broad principle of conservation previously outlined.

President H. A. Jastro of Bakersfield, Cal., and first vice-president Murdo MacKenzie of Trinidad, Colo., were among the early arrivals.

Pinchot, who is carrying livestock men from all parts of the country, who have been delayed by storms, arrived and relieved from the gates of the Western Livestock show are officially thrown open tomorrow for the week's display.

NEWS OF THE GREAT PACIFIC SLOPE

LEGAL LIGHTS IN THE DARK. STATE LAWYERS MUDDLE CODE COVERING CRIMINAL APPEALS. [BY DIRECT WIRE TO THE TIMES.]

SACRAMENTO, Jan. 10.-(Exclusive.) Instead of simplifying the law as to the disposition of criminal cases both on judgment and appeal, as was intended when the Legislature last year adopted the bills presented by the San Francisco Bar Association, the result seems to have been a hodgepodge of provisions which will lead to confusion and delay in the courts.

This was the opinion expressed during argument today in the Third District Court of Appeals, when the case of the People vs. Echeadey, the convicted murderer of a man named Halloran in Mendocino county, was argued. A similar case is said to have been heard by the Superior Court at Los Angeles.

Judge G. H. Fairall, of San Francisco, arguing for the defense, contended that Echeadey was entitled to a new trial because he was not sentenced within five days after the verdict was rendered.

Thousands of dollars are accumulating in the hands of their individual creditors, and thousands of dollars are now in the hands of the credit of the Indians who are dead, no one knowing to whom the money should go.

MEMPHIS (Tenn.) Jan. 10.—[Exclusive Dispatch.] Southern fight fans had little opportunity to see the Langford-Dixie fight at the Phoenix Athletic Club, on account of the case of stage fright manifested by his opponent, Dixie Kid, at the start, but during the brief space of time Langford exhibited, he created a sensation by his tremendous punches, which were dealt to Dixie in such rapid fashion that the kid was counted out shortly after the start of the third round.

Previous to that, Dixie had consumed half of the time in taking the count. The referee seemed to take the cue from the audience, which showed sympathy for Dixie Kid, and there was little complaint when Dixie fell sprawling at the slightest provocation.

It was a repetition of the meeting in Boston between the two. Dixie took the mat from a body blow in the first round, and although he tried to stay away thereafter, Langford bored in, toppling his opponent over almost at will. He rarely played for the jaw until the third round, seeming bent on giving the fans a run for their money. Finally he whipped a right to Dixie's chin and the trip to slumberland commenced.

Langford helped his victim to his corner and assisted in the process of reviving him. Then Langford and his manager, Joe Woodman, hurried to the station to catch a train to Philadelphia, where they will be present at the O'Brien-Kaufman fight.

Tommy Dixon gained a light-round decision over Babe Cullen in the preliminary. A crowded house witnessed the bouts.

EASY FOR MURPHY.

DEFEATS JOE BEDELL.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Jan. 10.—[Exclusive Dispatch.] Tommy Murphy gave Joe Bedell a terrific beating at the Bedford Athletic Club, Brooklyn, tonight, but Thomas had a hot time handling Joe's lacing. It was in the clinches that Murphy did most of the damage, and he was able to keep his opponent from getting any of his own back.

Bedell fought well when they were "broken," but as soon as they came to their feet, Murphy was on him, and he was able to keep his opponent from getting any of his own back.

Bedell spread Tommy's nose all over his face. Joe was also well marked at the finish.

SPORTS KNEW IT.

BIG FIGHT FOR FRISCO.

(ASSOCIATED PRESS NIGHT REPORT.)

SAN FRANCISCO, Jan. 10.—Positive assurance was given by Jack Gleason tonight that the Jeffries-Gleason championship fight will be held in San Francisco or the immediate vicinity.

This statement followed the formal application which he made before the new Board of Supervisors for a permit to conduct a fifty-five round contest in San Francisco some time this year.

The local law at present recognizes only twenty-round fights and this is the first time in years that a permit for a fight of a greater number of rounds has been requested.

Gleason's application has been referred to the Police Committee of the board.

He says he does not know what action the Supervisors will take. Gleason also stated that the big fight would not be held in Salt Lake or in any of the Nevada towns, and that as soon as any action had been taken on his request for the permit he would notify Tex Rickard, his partner in the enterprise, and plans would be drawn for the arena.

SOCER FOOTBALL.

Eight Teams Open the Week With Games at San Francisco and Near-by Cities.

(ASSOCIATED PRESS NIGHT REPORT.)

SAN FRANCISCO, Jan. 10.—Four games were played Sunday by the soccer football teams of the bay cities, with the following results:

At Oakland—Burns, 2; Thistles, 6.

At Fruitvale—Vampires, 5; San Francisco, 1.

At Alhambra—Albion Rovers, 4; Barbarians, 2.

At San Francisco—Independents, 6; United Canadians, 6.

BIG INDIAN GOES EAST.

After Champion's Scalp.

(BY DIRECT WIRE TO THE TIMES.)

EL PASO, Jan. 10.—[Exclusive Dispatch.] John Middlekey, wrestler and champion, is expected to leave for New York where he hopes to meet Frank Gotch, Dr. Rolier and other heavyweight wrestlers.

Middlekey is the biggest Indian fighter and his huge bulk of a form looks like a fatiron building moving down the street. The continuous rain has put on him a hat and wears a bright red bow on his long black hair. He stands six feet in his bare feet and weighs 350 pounds. He is so large he is unable to get into a Pullman berth and rides in day coaches. After the summer, he will return to Yuma for the summer.

GRIFFITH ANGRY.

Will Correct Drinkers.

(ASSOCIATED PRESS NIGHT REPORT.)

CINCINNATI, Jan. 10.—"I am going to carry out my policy against misbehaving members of the Cincinnati team next year, if I have to hire 4000 private detectives to do so," said Manager Clark Griffith last night.

"The people pay their good money to see baseball and they should see good baseball, not the ragged kind that mismanaged men put on. Every man will have to be on his toes next year. If he is not, and his thirst is the cause of it, there will be one man less to draw a salary."

FIELD TRIALS EVENTS.

Great Interest Shown by Local Dog Owners in the Coming Meeting at Bakersfield.

Local dog fanciers are much interested in the coming twenty-seventh annual field trials to be held at Bakersfield, beginning Monday, January 24, and in all probability there will be five or six sports present from this end of the State, but from all accounts none of the local dogs will be entered.

The first trials to be run will be the Derby, which is for setters and pointers less than two years of age. A winner may not be decided for two days.

On the following Wednesday and Thursday the All-age stake will be on. The winners' stake is set for Friday and the Members' stake for Saturday. In this the dogs must be handled by members and it is the only stake in which retrieving must be done. Frank Johnson, Schumacher, H. W. Keller, Dave Katz and Page Bryson will probably comprise the party from this city. Bryson was the original owner of the famous old pointer Gladstone.

TOO MUCH CLASS.

POMONA TRIMS "OXY" ATHLETES.

LOP-SIDED RESULT IN GOOD BASKETBALL GAME.

Winners Make a Runaway Race from Start to Finish—With Better Goal Throwing Oxy's Total Might Have Been Greater—McKenney's Heave from Court Center Feature.

The Pomona quintette won its second victory over Occidental College after a hard fought basketball game at Occidental Campus yesterday afternoon, the score being 27 to 15.

The game was an improvement over the first contest. The Occidental team worked desperately, and it was not until the last moments of play, that Pomona was certain of victory.

With the score 19 to 10 against them at the beginning of the second half, the Tigers made up three baskets before they could be stopped by the Pomona guards. Fouls were frequently called, and if Occidental had had a consistent goal thrower, the final result might have been different, as the field and team work equaled their opponents. Neules of Pomona threw six goals out of eight, while Occidental converted only two out of nine attempts. The teamwork throughout was poorly developed, although the clever dribbling and passing of McKenney and Seay were commendable.

Seay gave the best exhibition of field throws, scoring six baskets. Although a new man, he is steady and accurate, and plays in excellent form. Twice he scored very remarkable shots. Hunt, another new aspirant, played consistently.

Lorbeer and Fischer as guards were good. Murphy did most of the damage, breaking up Occidental's play, and carrying the ball to their own goal. Neules made several beautiful tries but was unfortunate, and converted but one out of four.

Robertson displayed considerable defensive strength, and McKenney's field goal from the center of the court was the feature of the game.

The line-up was as follows:

Pomona: forward Seay; guard McKenney; center McKenney; guard McKenney; guard McKenney.

Occidental: forward Seay; guard McKenney; center McKenney; guard McKenney; guard McKenney.

Goals—Seay, 6; McKenney, 1; McKenney, 1; Fischer, 2; Lorbeer, 2; McKenney, 4; Neules, 1; Fouls—McKenney, 2; Neules, 6.

SWEET REVENGE.

OXY PREPS TURN TABLES.

The basketball team of the Occidental preparatory department ran away with the Pomona prep in a fast game, the first time in years that Occidental has won a game.

Yesterday afternoon, Occidental defeated Pomona at the end of the first half had sent the score up to 29 to 9.

Pomona played better ball in the second half, and by aggressive defense and quick throws won points, but the poor guarding gave Occidental's fast forwards many opportunities to score, and the game ended 40 to 20.

"Sammy" McClung, with eleven baskets, was the star of the game. He was the only player in the game who scored in both halves. He was also the only player who scored in both halves.

Malone and Eakin did effective work for Pomona. The line-up:

Occidental: forward Seay; guard McKenney; center McKenney; guard McKenney; guard McKenney.

Pomona: forward Seay; guard McKenney; center McKenney; guard McKenney; guard McKenney.

Goals—Seay, 6; McKenney, 1; McKenney, 1; Fischer, 2; Lorbeer, 2; McKenney, 4; Neules, 1; Fouls—McKenney, 2; Neules, 6.

BASKETBALL IN COLLEGES.

University of Pennsylvania Has Popularized the Game into a Revenue Producer.

[Omaha Bee.] When college students return from their Christmas vacations some two weeks hence the season of the minor sports will be in full swing. Basketball and track athletics will, as usual, occupy the center of the stage. With in the last few years basketball has leaped into great popularity. Not only does it afford an excellent training for a great many athletes, but it is virtually the only winter sport that is self-supporting. The University of Pennsylvania basketball has flourished to such an extent that the sport association has a net profit of nearly \$1000. In fact it was the only sport at the Quaker institution besides football which was self-supporting.

Once more Harvard has decided to place basketball team on the campus. The Crimson never did play the game, but it is now being played. This followed the action of the Intercollegiate Basketball Association in abolishing the game's university sport. Still the different managers have arranged their schedules that the results of the season's games will virtually decide the intercollegiate championship. Cornell is still off the Yale schedule, due to a misunderstanding, and some hard feeling engendered two years ago, but otherwise the various schedules are the usual two games with each other.

As for track athletics there have been no national meets held in the East and college men will not lack for opportunities to compete and prepare for the outdoor season.

GREAT HORSE.

SALVATOR WON PRINCELY SUM.

World-Beater Died Last Year in Kentucky.

Racing Career Extended Over But Three Years.

Finished First in All But Three Starts.

Salvator, perhaps the greatest horse ever bred in this country, certainly the best-known thoroughbred, which died last year of the age of three, was foaled in the year most famous in the history of the American turf for great horses—1886. It was in that year that the famous Proctor-Knott, Diablo, Marion C, Oregon and a number of other famous horses were foaled.

Although Salvator's racing career extended over only three years, his total winnings—\$113,710—place him twelfth in the list of the great winners of the American and English turf. In only one race did Salvator fall to finish inside the money. That was his first start as a 2-year-old in the Junior Champion at Monmouth Park, on August 11, 1888.

This race was won by Proctor-Knott, who was the leading 2-year-old winner that year. In the Futurity, Proctor-Knott again won, and in the following year Salvator finished third in the Junior Champion at Monmouth Park, on August 11, 1888.

ASTHMA AND CATARRH
GAINED TWENTY-ONE POUNDS IN SIX WEEKS.
H. C. Weaver, who lives at 2424 N. Chicago st., Los Angeles, says: "I have been in bad shape for four (4) years from Asthma and Catarrh, and a generally run-down condition. Many nights I would be compelled to sleep sitting up in a chair and would wheeze and cough all night. This was my condition when I came to Drs. Shores & Shores. Dr. Shores helped me from the first. I AM NOW ABLE TO DO A FULL DAY'S WORK IN THE SHOP AS A BLACK SMITH and feel fine in every way. I have gained 21 pounds in weight, and it gives me great pleasure to recommend Drs. Shores to all sufferers, for they have done wonders for me. I will gladly verify the truthfulness of this testimony." (Signed) "H. C. WEAVER."

Cars That Have Made Good

Automobile buyers might be pardoned if they felt a little bit bewildered right now. There are so many new cars being announced and so many radical claims being made for them that buyers are apt to be a little up in the air.

The average automobile buyer is very largely at the mercy of the manufacturer, because he doesn't know nearly as much about what he is trying to buy as the other man does about what he is trying to sell.

The average buyer—you may as well admit it—has not had the technical training, nor the experience, that would make him capable of judging whether a new model really was a good one.

He must depend upon someone else. But who? The dealer? He is prejudiced. The maker? He is prejudiced. The record of the car? Yes, by all means, if the car has a record. The public? Yes, again, if the public has bought a car in quantities, and tried it.

While the Horse may be passing, yet Horse Sense is still as break and water to us. Here is a bit of it that will appeal especially to any who are bewildered by the many claims that are now being made.

You can't make a mistake if you buy a car of established reputation—a car that has stamped upon it a big, successful, reliable name—a car with a record—a car that the people have bought in quantities.

You might make a mistake buying some other kind of a car. A new car may be a good car, but no one knows that it is until it has been thoroughly tried out.

People of the United States have spent millions of dollars for motor cars. These people really have made purchasing an easy matter for you when you stop to think about it. Why not profit by their experience?

You take no risk when you buy a licensed car. These cars have made good for years. Thousands of owners have proved them for you. So buy a Licensed car and take no risk.

BALLINGER AS FINE CITIZEN.

How He "Made Good" When Mayor of Seattle.

Northern People Believe in Secretary Interior.

High Tribute Paid Him by Y.M.C.A. Director.

"You cannot make an intelligent Seattle man believe that Secretary Ballinger is corrupt or dishonest. He is one of our finest and most upright citizens. As Mayor of our city he gave us the cleanest and most efficient administration had up to that time. As a Christian man and resident of Seattle, I unhesitatingly express my entire confidence in him," declared William H. Lewis, president of the Congregational Brotherhood of America, at the Alexandria, last night. Mr. Lewis has been superintendent of the Sunday-school of the Pilgrim Congregational Church of Seattle for sixteen years; is a director of the Y.M.C.A. in that city and a member of the General Committee of the Laymen's Missionary Movement in America. While a member of the Washington State Legislature, Mr. Lewis succeeded in getting a bill passed which put an end to open gambling in that State.

He came here to deliver an address tonight to the men of the Congregational Churches in Southern California at the Federation Club. In the course of his address of the spread of the Congregational Brotherhood in the country, Mr. Lewis was asked his opinion of Secretary Ballinger, who was summoned from his law practice by President Taft to take charge of the Interior Department.

"HONEST, UPRIGHT CITIZEN." "Under ordinary conditions, I would not care to express myself for publication," said he, "but in view of the present controversy at Washington, I am glad to speak for Secretary Ballinger, who, perhaps, does not need any commendation of mine to make fair-minded persons appreciate his true worth."

"Contrary to an apparently popular conception, Judge Ballinger, as he is generally called in Seattle, has never entered into any business transaction. His firm has always had a large business, much of it being against corporations. I think the principal clients of the firm consists of persons with small claims to be adjusted."

"When Ballinger was proposed as a Mayoralty candidate at first, I opposed him. We were in a determined fight against an 'open town.' Ballinger would not make any specific promises beyond stating that he would enforce the law. We were looking for a more decided expression of sentiment."

"After his election, Ballinger delighted us all by his rigorous enforcement of the law. He gave us the cleanest and most efficient administration we had had prior to his election. Having started the city on the right track, he refused the nomination for a second term, and returned to his law office."

"In the same way, President Taft called him to take charge of the Interior Department. As Secretary of the Interior, I have the utmost confidence that he has been guided by the same sense of fairness and justice, the same fidelity to high principle, the same zeal for the public interest that have characterized both his public and private life heretofore."

"As a Christian man and a citizen of Seattle, I unhesitatingly express my entire confidence in Secretary Ballinger. He may make his mistakes, like other men, but he is a clean, honest, upright citizen, who is serving his country faithfully and quietly. When the smoke has cleared away and the people know the truth, he will be absolutely justified before them."

SHAMEFUL WOMEN WRANGLE; WARRANT OUT.

FEUD BEGINS OVER APARTMENT-HOUSE CLOTHESLINE.

Flying Billets of Wood, Scandalous Language Uttered, Horsewhipping and Family Wash Troubles All Mixed Up in Charges Which the District Attorney Will Investigate.

Supreme as an agent of quarrels, general turmoil and bloodshed, the family clothesline worked another infectious spell yesterday. A feud, which began with an argument about intersecting ropes for the family washing, came to the attention of the District Attorney's office.

Deputy McCormick issued a complaint for Mrs. J. M. Williams, No. 2944 Valles Street, against Mrs. Delia McClain, who lives in the same apartment-house. The complaining witness says that Mrs. McClain struck her with a buggy whip and wielded it with force.

Mrs. McClain says she whipped her neighbor because the latter talked about her in a scandalous manner. The whipped one insists that the whipper is making excuses which have little to do with the case.

The original row came to the attention of the District Attorney's office several weeks ago, when the woman had trouble because of an intersecting clothesline. At that time Mrs. McClain was accused of hurling filth of wood at Mrs. Williams, after words ceased to carry enough weight in the argument. The District Attorney's office acted as intermediary and general peace envoy, and the clothesline parties went away apparently on peaceable terms.

Then the wicked old line got a double-crossed spell Saturday, and got the ladies into another controversy. Mrs. McClain, it is said, found that she was no wonder when it came to unlawful hurling, and took out a horsewhip and attacked her foe.

Mrs. Williams says her feelings were hurt, and besides that, her physical being was hurt, and the District Attorney's office took notice of her grievance. Mrs. Delia McClain was not arrested last night, but a warrant is out. It is believed that the dangerous clothesline may be introduced as evidence in the case, and diagrams may be furnished showing how it all happened.

FINE BUILDING, GOOD PROFIT.

Exchange Corner, Third and Hill, is Sold for Six Hundred Thousand Dollars.

The predictions of the large realty men that the present year would see the consummation of a record number of huge deals in inside business property had a handsome beginning yesterday, when Philip L. Wilson, president of the Traders' Bank, transferred to M. J. Monette the Exchange building, northeast corner of Hill and Third streets, for a consideration of \$600,000. In the past twelve months but one other business holding, the northeast corner of Fifth and Broadway, has changed hands at so high a figure. The latter transaction, which was the largest in the history of the city, involved \$600,000. The sale yesterday was conducted through the agency of Mines & Farish.

The Exchange building property has a frontage of 121 feet on Hill street by 115 on Third. The improvements consist of a six-story and basement steel frame and brick block of the most modern construction and appointment. The holding pays a handsome interest on the investment price. The structure was formerly known as the Conservative Life building.

Mr. Wilson purchased the building from the Pacific Mutual Life Company a year and a half ago for \$543,000. The offer of \$600,000 and a profit of \$57,000 was accepted by him after negotiations of many days, and strikingly illustrates the sterling value of Los Angeles business property. The purchaser stated yesterday that he is confident he has made a far-seeing investment that will net him rich rewards as the city continues to develop and grow.

DOUBTS REMOVED.

DEATH OF BOY INVESTIGATED.

AUTOPSY REMOVES SUSPICIONS OF THE CORONER.

Doctors Find Lad at Hotel Berkeley Died of Pneumonia—Staphylococcus and Mother Not Blamed—Mysterious Telephone Message Came from Member of Humane Society.

An autopsy was held yesterday afternoon on the body of Charles T. Miller, the nine-year-old stepson of S. Parker, who, up to Sunday night, lived at the Hotel Berkeley, Ninth and Main streets.

Coroner Hartwell prompted an investigation through Deputy Coroners McDonald and Williams, because of reports made about the death of the boy. Dr. E. J. Cook, No. 1135 Elden avenue, signed a death certificate, which stated that the child died of pneumonia. "The autopsy showed that his diagnosis was correct and that the boy was in a weakened condition due to heart disease."

Mrs. Cora Heap, a member of the local Humane Society, called Coroner Hartwell on the telephone Sunday afternoon and tried to tell him about the dead child. All the coroner could hear was something about "a child beaten to death" in room No. 32 at Ninth and Main streets.

The Humane Society has been investigating the treatment given the little boy and began work on the case Saturday. Charles Miller was kept with his grandmother and an aunt at their home near Latin Station. He was a sickly child, but bright and sensitive, and although he made no known complaints about the treatment accorded him, neighbors communicated with the Humane Society and caused an inquiry to be conducted by Mrs. Heap. Mrs. Heap says that she has not dropped her investigation of the case, and has more to say on the subject of the boy's treatment while living with his grandmother.

Deputy Coroner McDonald said yesterday: "No odium attaches to the parents of this child. Miller's report which tends to throw suspicion on any one has to be investigated. Often reports of foul play are groundless and sent in by foolish and hysterical persons. Yet it is a Coroner's duty to investigate, because when the deceased is buried it is too late to make an investigation without great expense to the county and much red tape. I am satisfied that pneumonia caused the boy's death."

Dr. E. J. Cook throws some light on the rumor that the boy was beaten or starved.

"He was brought in from the home of his grandmother, and he was very sick. He was delirious most of the time while he was at Hotel Berkeley, and he was badly bowled while unconscious. This noise may have excited the neighbors," said the doctor.

Such Bros., undertakers, No. 542 South Figueroa street, say that there were no marks nor signs of violence on the body of the child or the parents of the child are deeply grieved.

RISK LIVES FOR PARROT.

Firemen Hearing Screams from Burning Tenement Rush to Rescue and Find Talking Bird.

NEW YORK, Jan. 10.—Two firemen who heard shrill screams coming from the upper floor of a burning Brooklyn tenement last night, risked their lives to dash through the flames, believing that a woman was perishing. Well-nigh overcome by smoke, they reached the top floor to find that the cries came from a big, green parrot in a wire cage. By this time escape down the stairway was cut off, and "Polly" was taken down the long ladders of the fire company.

MUCH DAMAGE DONE. SUPAT TOWN DEVASTATED.

A Wall of Water Sweeps Through Cataract Canyon.

Buildings Are Swept Away by Raging Flood.

Indian Residents Are Warned and Make Escape.

(SPECIAL CORRESPONDENCE OF THE TIMES.)

PHOENIX (Ariz.) Jan. 7.—The wiping out of the Supai Indian agency and village in the cañon of Cataract Creek, eighty miles northwest of this point, is an accomplished fact, later advice telling that the first reports were not overdrawn, save that it cannot be learned that any lives were lost. It is told that on Sunday a wall of water, swept down the narrow cañon, ten feet or more deep, and wiped away the agency buildings, the schoolhouse and almost every Indian hut, besides devastating the irrigating ditches and the fields of the Indian farmers. The valley is ruined and it is believed that the government will take measures for removing the Indians to some other reservation location where they can be given farming land and where they may live in security.

Last week around Williams, the entire country was covered with more than two feet of snow on a level, the drifts being much deeper than this on the slopes of Bill Williams Mountain. A week of rain, with a day, cleared the mountain side and means of the snow and sent a raging torrent down Cataract Creek, which runs through the center of the city. The consequences had been anticipated and the Indian population was at home. Save the aged, most of the Indians leave the valley in midwinter, to hunt on the plateau above, or to work around the superior in the Chino. The agency school had been discontinued since the flood, and the teachers had gone away.

The flood was not the first known. The tribal historians have a graphic account of a similar disaster about fifty years ago, in which the tribesmen lost almost everything. Since that time a part of the aboriginal population has occupied stone-built huts on the hillsides, above their fields.

The total population of the valley is normally about 200, the Indians having died off of late years by diseases brought by the white man. They are of the original Apache stock, of Yuma classification. They have always been friendly toward the white man and agricultural in their bent. They were first visited about 1773 by Padre Gages, who climbed down the cliffs at the risk of his life and who graphically wrote the details of the trip to his superiors in the Chino. The Indians have been famous as the most skillful basket makers of the Southwest, using colors with rare good taste. Using the water, they have grown remarkably fine peaches and apricots, as well as melons, pumpkins and alfalfa.

As a scenic feature, the cañon of Cataract Creek surpassed in Arizona only the Grand Canyon. It is a narrow cleft in the limestone and sandstone of the plateau, in few places more than a foot wide. About the only practicable trail is down the side cañon of Toke Creek, about forty miles west of El Tovar on the Grand Canyon. The cañon floor is level and usually dry, but the agency is reached. There is a fairly constant stream of about 10,000 miners' inches, thence flowing in a narrow bed, the succession of extraordinary cascades.

SEVERAL FALLS. The first is a cascade, known as Navajo Falls, 75 feet in height. Below is Bridal Veil Falls, 150 feet high, where the water is broadly spread over the ledge from which it drops. The third, Mooney Falls, is 250 feet high, the stream comes west of El Tovar on the Grand Canyon. The cañon floor is level and usually dry, but the agency is reached. There is a fairly constant stream of about 10,000 miners' inches, thence flowing in a narrow bed, the succession of extraordinary cascades.

Each of the falls is over a cliff of petrified wood, and the water ferns from which the vegetable fiber has been washed away and replaced by a lime-silicate solution strongly held in suspension by the petrified wood. Every turn of the valley beautiful specimens, broken from the cliffs, beneath the falls, are found. They are of various sizes, from a few inches to several feet long, and are of various colors, from a brown to a green, with a tinge of the green of the original wood.

Several years ago an enterprising company tried to build a railroad, and although he made no known complaints about the treatment accorded him, neighbors communicated with the Humane Society and caused an inquiry to be conducted by Mrs. Heap. Mrs. Heap says that she has not dropped her investigation of the case, and has more to say on the subject of the boy's treatment while living with his grandmother.

Deputy Coroner McDonald said yesterday: "No odium attaches to the parents of this child. Miller's report which tends to throw suspicion on any one has to be investigated. SETTLE THE INVESTMENT QUESTION.

There is more profit in transforming raw acreage into high class residential districts than in any other form of industrial or commercial operations in Los Angeles today. The demand for homes is tremendous—and is increasing every day. Extracting every ounce of profit in every step from acreage to completed homes, means 15 to 30 per cent. dividends—with stock increasing in value every day. Our big family of co-operative subdivisions and home builders—all on practically an equal basis—are united in pushing us on to success. Our building operations are already so successful that our stock advances to \$10.00 per share February 1st. Call or write NOW for our booklet "The Small Investor's Greatest Opportunity." It tells the plain facts about the best home-building proposition offered to the public in the Southwest.

OIL, THE FORTUNE BUILDER

Since the drilling of the first oil well on the American continent, 50 years ago, we have exported three billion dollars' worth of oil. This sum is greater than the gold output of America since its discovery. Tremendous fortunes have been made and are being made today by the production of oil in America, but in no State is there recorded as steady incomes as from the oil fields of Sunny California.

GREAT GUSHERS FLOWING STREAMS OF WEALTH.

To one who is familiar with California oil and has studied the fields, the industry is fascinating and even intoxicating. It is oil everywhere; it permeates the atmosphere; it moves, it dances and controls everything and everything surrounding it. Its streams of greasy fluids, gush and brown, turning like golden dollars, have a glitter that surpasses even gold itself. It is a trip to the oil fields of California to see one of those great gushers flowing its streams of sands of barrels of oil daily.

THIS MEANS WEALTH FOR YOU.

Yes, it means a flood of golden wealth for YOU, if you are a stockholder in one of the many dividend-paying oil companies of California. The record is marvelous! For the month of November just passed, according to the "CALIFORNIA RED BOOK," thirty listed companies on the Los Angeles and San Francisco exchanges gave their stockholders over \$500,000. This is not a record. When we consider that the majority of the oil companies are not listed on any exchange and are known to have paid large profits, also, we believe the total dividends paid to all California oil companies will exceed ONE MILLION DOLLARS FOR THE MONTH OF NOVEMBER. Congratulations to yourself if you are a stockholder. Your judgment was sound in the investment. There is no reason why you cannot have a great income. Continue to put your stock in good, well-managed California oil companies and YOUR INVESTMENTS WILL MULTIPLY MANY TIMES AND BRING CONTINUAL PROFITS.

CROWN OIL COMPANY RUSHING WORK AND MEETING WITH SPLENDID SUCCESS

FILLMORE, Cal., Jan. 7, 1910.

Gentlemen: Work is progressing nicely upon the lease. Main intervals somewhat, but our two buildings are about ready for occupancy. Just as we ground cleared and delivered the lumber for the derrick.

I am as anxious as yourself to see the machinery set and have the oil dropping. I am glad the company has enough funds to meet expenses.

If all stockholders and those of the public interested in oil investments could understand what a bonanza you have in the Crown Oil Company, I am positive that you would have no trouble in getting all the money you could believe you made a mistake by not taking 10c or 15c for the stock at the time it was first offered. I consider that the 320 acres ground is large enough to pay dividends on a large dividend and I see no reason why you should not get plenty of light oil.

The oil sands are ideal for the production of a very high grade of oil. The gashes, White Star and other wells along Little Sages Creek, by drilling our well, will give the company a great income. Continue to put your stock in good, well-managed California oil companies and YOUR INVESTMENTS WILL MULTIPLY MANY TIMES AND BRING CONTINUAL PROFITS.

I am advising my friends to buy your stock because my 25 years experience in the oil business tells me the value of your property and its possibilities. I have received the estimates for our machinery. Will take the matter up with you when in Los Angeles. Great excitement here over the last Big Sage company well, which is flowing in barrels from a depth of 700 feet.

ONLY 50,000 SHARES AT 7 CENTS.

The first offering of stock at 7c per share was eagerly subscribed for by the public and the allotment of 50,000 shares at 7c per share was made. If you want to make money, buy the oil business in California. The Crown Oil Company is the best investment in the Crown Oil Company NOW while the stock is offered at the present selling price and before you desire to investigate reserves a few hundred or a few thousand dollars. Don't delay the investment.

CROWN OIL COMPANY, 622 LAUGHLIN BUILDING, Los Angeles.

Gentlemen: Reserve for me..... shares of the Crown Oil Company at 7c per share until I investigate fully. Send me printed matter.

Skull Fractures and Other Injuries.

Probably Caused in Attempt to Catch Car.

Head crushed in three places in the falling car. One of the young hotel clerk, who was on the street car tracks at Fifteenth street, last night, was killed. He died in the hospital at about midday.

It was a street car accident. Theories that held the attention of the public, were discarded after the arrival of the coroner's jury.

The coroner's jury, after a long session, returned a verdict that the death was caused by the falling of the car.

Scene from "The Shepherd King."

drumatic production of a Biblical story, which began a week's engagement at the Mason Opera-house last night. The presentation employs a large number of local players.

ANOTHER BIBLICAL PLAY SEEN IN "THE SHEPHERD KING."

THE first distinctly Biblical play to be offered here upon a large scale since "The Holy City" came to pass last night at the Mason Opera-house, in Wright Lorimer's production of "The Shepherd King."

This play tells the story of young David, picturing his first ambitions as he plays upon the harp and tends his flock, follows him in his coming to the camp of the misquid Saul, witnesses his slaying of the giant Goliath, and keeps in touch with his movements until the crown of a great kingdom settles upon his brow.

As a dramatic vehicle, Mr. Lorimer's work—the play is from the actor's pen—leaves a good deal to be desired. When judged from our twentieth century standards of succinctness and climax, but it is interesting to the toward the recounting of sacred here, has many pictorial features of value, and is high in moral tone throughout.

The popularity of the play has been attested by many seasons of vigorous life, for, though this is the first presentation here, "The Shepherd King" matter of theater-going of the East.

At one time Manager Blackwood planned to open Lewis Stone in this drama at the Belasco Theater, on his return from the long summer vacation, but this design was abandoned, probably because Mr. Lorimer himself had taken a fancy to the western trip.

The scenes show the home of David, near Bethlehem; the camp of Saul in the Valley of Elah; the palace of Saul at Gibeon; the cave of the Witch of Endor; and the court adjoining Saul's palace.

These settings are works of great beauty, and are of unusual historic accuracy, as well. The rattle of the armor, while it may amuse, is nevertheless an unimportant matter when that armor is fashioned in exact replication of the steel defenses of the period. In tapestries, hangings and mural decorations, Mr. Lorimer is especially well equipped.

The manipulation of the lights, too, is very good, and especially in the second act, where a genuine effect of sunrise on the tents of Saul's army is shown, is the effort generally appreciable.

One of the features of the production here is the large number of local people required to complete the cast, fill out the armies and give numbers and voice to the "necessary" populace. About 100 extra people have been employed, and the stage manager spent a busy day yesterday in fitting them to their armor or gowns, as the case might be.

Mr. Lorimer plays David. He is of less than average stature, but makes up for his deficiency of height by a naturally commanding presence—not forgetting elevations in the heels of his sandals. Then, too, he is of strongly muscular figure, and is of fine face. His voice last night was greatly obscured by one of the prevailing colds, but it revealed itself nevertheless as an organ of dignity and capability.

The remainder of the cast includes Daniel Giffether as Jesse, the father of David; Alison Skipworth as David's mother; Brigham Boyce as Saul; Irving White as Prince Jonathan; Fredricka Goring as Princess Michal; Helen Singer as Princess Merab; W. R. Hodges as the prophet Samuel; Eugene Mack as Goliath, and Miss Skipworth—again—as the Witch of Endor.

There is a company of dancers and special music for the production.

SIMPLE REMEDY FOR KIDNEYS

A very simple and most effective remedy for weak or deranged kidneys or bladder is as follows: Mix one-half of a glass of water with one-half of a glass of Murax compound, one-half of a glass of extract Buchu, six ounces good pure gin, and take one or two teaspoonfuls three times a day, after meals. Any good druggist will furnish or mix these ingredients. This will quickly cure symptoms of kidney or bladder trouble, or highly colored urination, rheumatic pains in the joints, soreness in the groin or hips, dizziness, puffiness under the eyes, etc. These symptoms are danger signs and must be attended to promptly to prevent deranged chronic rheumatism, Bright's disease or diabetes.

HOOKWORM IS OLD DISTURBER.

Ceylon Commissioner Declares that Lazy Bug Was Discovered at Work Thirty Years Ago.

(ASSOCIATED PRESS DISPATCH.) NEW YORK, Jan. 10.—The hookworm was discovered and the seriousness of its ravages first recognized in Ceylon, thirty years ago, according to Walter A. Courtney, lately Ceylon Commissioner to the United States and before that a British official and planter in the Asiatic country.

"It was back in 1879," said Mr. Courtney, "that a British medical supervisor named Thornton, determined to find out what was the trouble with the coolies on my estate. Two-thirds of them had been stricken hopelessly lazy and seemed to be affected with some disease which made it impossible for them to work."

"Dr. Thornton experimented and finally found the hookworm. The government doctors discussed the disease and named it ankylostomiasis. They found that the natives had got the disease by going barefoot in the soft loam on a certain portion of the estate."

"After long study the doctors found that they could cure the disease in about a month by giving two or three drugs with success, notably epsom salts, and thymol, but got their best results from carefully dieting their patients."

LOCAL RAILROAD RECORD.

TO CUT TIME THROUGH CUT.

Work Begun on Four Tracks To Pasadena.

Three-Car Express Trains a Service Feature.

Work Also Rushed on Long Beach Division.

Work on the long-proposed four-track system of the Pacific Electric, northern division, was begun yesterday morning, when a tower car and two camps of graders and steel layers were started at work, east of Onocenta Park on the Monrovia line.

The four-track system will be installed at the present time from the Indian Village junction near the city limits to El Molino station, on the Monrovia line.

The work will require at least sixty days to complete and may take longer if the special cutting and filling is delayed, and the operating department is unable to deliver sufficient materials to the engineers.

At the present time work will be rushed on the track for southbound cars, and traffic will not be interrupted at any time. When the southbound express train is finished it will be used for northbound service for a time and the line now used will be straightened for use of locals.

When the improvements are finished through trains will be run to Pasadena, not only by the short line, but also over the Oak Knoll road as well.

Three-car trains will be run and it is proposed to cut loose the last car from the through Pasadena train for local service between Onocenta Park and the Raymond Hotel. The last car will be cut from the through trains at Onocenta and will run as a local up the hill, obviating the frequent stops and slow uphill starts made necessary by South Pasadena stations.

When the new tracks are finished there will be no express stops on the Pasadena line except at junctions between the Alto-street bridge and the Salt Lake crossing in Pasadena. The running time will be cut down materially and trains of sufficient length to accommodate the traffic will be put on.

Not only is work progressing on the northern division, but cuts and fills are being made on the Long Beach line to prepare for the installation of a four-track service on that division, while grading on the line around the harbor is being rushed to completion.

According to the terms of the franchise offered the road by the Wilmington Trust Co. a carriage road must be graded free to the city for the privilege of running the electric line into the new territory, and the engineers are now working on this.

Chief Engineer Pillsbury will return from the East within a few days, and under his personal supervision the rapidity of work will be increased.

In the meantime the line has been reopened on the Covina branch where the washouts the first of the year cut the communications. One track already is in operation, and the cars going in both directions run over the bridge on this track, while the second track will be finished before the middle of the month.

HUNTINGTON READY. WILL GET TONIGHT. Arrangements are complete for the presentation of the conductors' and motormen's loving cup to H. E. Huntington at the Eagle Rock car barn of the Los Angeles Railway Company at 8:30 o'clock tonight.

The cup was purchased by the committee yesterday, and the supplies for the smoker have been laid in. Mr. Huntington has known for some days that the cup would be presented and postponed an eastern trip for three days in order to receive it from the men in person.

As already announced, the cup will be given Mr. Huntington by the men of the Los Angeles Railway, who were given a voluntary raise in wages the beginning of the year, according to length of service, of from 1 to 3 cents per hour.

The men did not know that the raise in their wages was anticipated until the announcement appeared in the papers.

As a result J. W. Barry and R. B. Foster of the first division, J. A. Monty and W. E. Stoll of the second division and J. C. Phillips and J. Z. Buckner of the third, were appointed as a committee to present Mr. Huntington with a token of the general feeling of the men.

The cup was subscribed for twice over, and the excess will be used for the entertainment.

WEST TAKES PRIZE. RAILROAD CONSTRUCTION FINE. One-third of all the new railroad construction work in the United States during 1909 was done in California, Nevada and Texas, and one-half the total new mileage west of the Mississippi was in these three States during the same period. California stood third in the list of all the States in the Union in the amount of new railroad work. Texas was first, and Nevada second.

According to data just prepared by an authority, 3745 miles of new railroads were laid in the United States during the past year, and of this, 2748 miles was west of the Mississippi. Texas topped the list with 666 miles; Nevada had 263 miles to her credit, and California 247 miles. No other State in the Union ran above the 200-mile mark.

The Western Pacific, with 430 miles of new road during the year, holds the 1909 record for construction work of this kind. The Southern Pacific comes next with 127 miles—all in California, Arizona and Oregon. This road also laid 230 miles of steel in Mexico during the twelve months just ended.

The construction record for the year was thoroughly healthy, railroad men say, indicating an entire absence of inflation anywhere.

SALT LAKE RESUMES. LOCAL SERVICE TOMORROW. The Salt Lake will be able to resume service over its own line through the California end of its route today, or tomorrow, for the bridge at Rio Hondo will be finished some time tonight, if everything goes well.

The work has been rushed to completion in remarkably quick time, considering the approach to the steel bridge was entirely washed out, and it was necessary to build a heavy permanent trestle across this, and to raise more than 800 feet of steel before the bridge was ready for use.

KIDNEY TROUBLE JUST VANISHES.

PUTS AN END TO BACKACHE OR BLADDER MISERY BEFORE YOU REALIZE IT.

Several Doses of Pape's Diuretic Taken Now Will Make Your Out-of-Order Kidneys Act Fine and Cure All Urinary Trouble—Thousands of Los Angeles Folks Will Again Enjoy Perfect Health After Doing This.

The most effective and harmless way to cure backache and regulate out-of-order kidneys, of and bladder trouble, is to take several doses of Pape's Diuretic.

You will distinctly feel that your kidneys and urinary organs are being cleaned, healed and vitalized, and all the miserable symptoms, such as backache, headache, nervousness, rheumatism and darning pains, inflamed or swollen eyelids, irritability, sleeplessness, or suppressed, painful or frequent urination (especially at night) and other distress, leaving after taking the first few doses.

The moment you suspect any kidney or urinary disorder, or rheumatism, begin taking this harmless preparation, as directed, with the knowledge that there is no other medicine, at any price, made anywhere else in the world, which will effect so thorough and prompt a cure as a 50c treatment of Pape's Diuretic, which any druggist can supply.

Your physician, pharmacist, banker or any mercantile agency will tell you that Pape, Thompson & Pape of Cincinnati, is a large and responsible medical concern, thoroughly worthy of your confidence.

Accept only Pape's Diuretic—50c treatment—from any drug store—anywhere in the world.

TIME IS MONEY. PRISONER NOW IS REPENTANT.

MAN IN JAIL FOR BEATING HIS MOTHER WANTS PAROLE.

He's a Taxidermist and the Hunting Season Is His Hardest Time. Says Others Will Suffer If He Is Not Allowed to Resume His Business Soon.

Andrew Booth, a taxidermist, convicted on a charge of beating his aged parents and sentenced to sixty days in the County Jail December 24, reopened his case yesterday by filing a petition for parole with the District Attorney.

Booth's sentence threatens to ruin his business and make him a beggar unless the authorities see fit to restore him liberty.

The young man was arrested at the investigation of his mother, Deputy Constable Adams made the arrest and yesterday he signed a recommendation.

A series of quarrels of a more or less serious character culminated in a free-for-all fight during which Booth was shown to have attacked his father and in turn to have been attacked by his mother, who pulled his hair. He turned upon her, and according to the testimony, struck and bit her.

Neighbors, however, testified in fairness to the young man that he bore signs of the encounter, showing rough handling. No evidence could offset the fact that Booth provided a good home for the old people for several years, and with his manager in control had provided for them.

Last year he was married. Trouble followed the wedding. Quarrels followed and at last came the fight which resulted in Booth being locked up.

In pronouncing sentence, Justice Summerfield set aside the plea for probation. He told Booth of the duty and respect every man owes his parents and the man stood there, silent, wining, the center of all eyes and literally quivering under the lash.

"I have all the papers in the case at hand," said District Attorney Frederick yesterday. "I have known Booth for several years, just as an acquaintance, and I always found him a hard-working young fellow who tended strictly to his business. I have his petition here. I will take no step in the affair until I have consulted with the Sheriff and have investigated thoroughly."

Justice Summerfield made no comment regarding the case, but he was asked to file a statement with the District Attorney along with the other papers regarding the petition for parole.

CLAY PLEADS NOT GUILTY. Henry Clay, a San Diego county ranchman, who is accused of setting fires upon government forest reserves, appeared in the United States District Court yesterday, and pleaded not guilty to the charge. He is at liberty on \$1000 bonds. His attorneys state he can easily prove his innocence.

Be a Winner

LOS ANGELES again commands the attention and admiration of the entire country. Aviation Week will prove another big advertisement for this city. This is a community where they do things—you will usually find Los Angeles in the lead.

This is particularly true of her stores. Take men's clothes, for example—you could not buy better merchandise if you were in New York City.

There are a lot of good makes sold here; we handle some of them. We handle none but what are thoroughly dependable. We have been in the clothing business practically all our lives, and have been selling men's clothing in this city for nearly six years. We believe we understand your requirements. If we knew where we could get better clothes for Los Angeles men than we now sell, we most certainly would have them.

Every suit we send out wins the confidence of the man who buys it.

SUMMARY OF THE DAY.

The Mayor has named Charles D. Silbert, J. H. Lippincott and H. W. O'Malley, Park Commissioners and W. C. Patterson a member of the library board.

\$2000 saloon permit was given to Patrolman Lenox, independent, last night.

Herman Brunner, alleged ex-convict, was in Judge Houser's court yesterday, on an order to show cause why he should not pay his wife, Louise Brunner, \$1000 month for the support of herself and children.

E. R. McPherson and A. W. McPherson, trustees of the Keating estate, filed their report yesterday in the Probate Court, and asked for its acceptance and their discharge. The matter will be heard the 21st inst.

Edits Mayhew, an Arizona mining man, filed a petition in the Superior Court yesterday, alleging that he had been defrauded in a real estate deal.

POLICE COMMISSION TWISTS BREWERY'S TAIL AGAIN.

Gives Permit for Cape Horn Saloon Valued at Five Thousand to Patrolman Lenox for Nothing, Because He is Expected to Cooperate with the Commission—Tepper Out of Business.

By granting a saloon permit to Andrew Jackson Lenox, patrolman, and revoking one held by Alois H. Tepper, last night, the Police Commission still kept one of the 200 permits by law in its strong box for future use.

Lenox applied for a permit for No. 1201 East Sixth street. He has been on the force several years and the Chief endorsed him. He has leased the property and intends to be independent of all breweries, he told the commission.

At the suggestion of Commissioner Topham, he related his experience trying to get a downtown location. He said he had tried to cooperate with a brewery, but found its demands extortionate.

Lenox got the Cape Horn \$5000 permit by unanimous vote, without cost. His testimony before the commission was to amplify the evidence already in the hands of the commission, that between breweries and the landlords the saloon-keepers were being "held up."

Lenox resigned from the force before the permit was granted, his resignation to take effect February 1.

The commission found reason satisfactory to itself in the Tepper case by discovering that there are fourteen saloons in the vicinity of the Southern Pacific depot.

"This is a good time to reduce the number," said Topham, and Tepper found himself unanimously reduced.

It was really not a revocation, because Tepper had been operating under a permit in the future south of the city for No. 400 Central avenue, where there is no saloon. There is another permit in Tepper's name and he for a place he has not owned for years and Wood Bros. now have an application pending for a new permit.

The "Pacific Recreation Company," which asked a permit for No. 619 South Spring street, amended its application, and substituted the name of Harry Z. Kelso, manager, but the commission would not act until the former owner consented to the transfer.

The application of Leo Ladanyi for a restaurant liquor permit at Third and Hill streets was denied because it is close to the Y.W.C.A. building and because the commission will not grant further restaurant permits, or any liquor permits except saloons, until the Council passes new laws on the subject, as is expected.

In revoking the billiard hall permit of Hamilton & Pound, No. 108 San Fernando street, for permitting gambling, the adjoining saloon of Blocker & Ashen became involved. The police said there was a connection between the place and Blocker, who was caught in the raid on the gambling room. It was also stated that the habit of the saloon is to "cut up" the money deposited on the counter by any chance visitor by calling up all in the barroom. The proprietor was cited to appear next Monday night to defend their permit. Commissioner Davidson was in the act of revoking the permit unceremoniously.

Incidental to this case the commission ruled that the Chief must enforce the ordinance relating to connections between saloons and other businesses, keeping the saloons isolated.

Permits were granted seven dancing academies under the new ordinance. The list included one that was the basis of the most drastic law on the subject, but the chief said all would be kept under strict inspection and prosecuted for the slightest wrongdoing, and that convictions would automatically revoke the permit. The Barber's Union presented a request that it be permitted to give dance lessons on Sunday night, and the commission, on the advice of City Prosecutor Edlin, held that to permit was necessary for a charitable or educational organization. The unionites gave the pretext that the proceeds were to go to their benefit fund, and the commission section that many expect to get around the provisions of the ordinance, the unionites leading.

The commission postponed all applications for retail liquor permits until tomorrow night. It will hold sessions tonight and tomorrow night, reviewing cases where saloon permits and brewery relationships are involved.

TREATY RIGHTS.

JAP AUCTIONEER KICKS. The auctioneer's license of I. Takai, Japanese, No. 122 West Fifth street, may precipitate international questions and perhaps war, according to the view of the Mayor at last night's meeting of the Police Commission, should it be revoked as proposed by the City Prosecutor and the police.

Takai is not a citizen of California and the issuance of a permit to him was ignored by the City Prosecutor, who had him arrested. The state law prohibits the issuance of an attorney's license to any but a citizen of this state, and Takai is an alien.

His attorney visited the Mayor and said revocation would violate the treaty between the United States and Japan, because it was not giving a citizen of the Mikado's domain the rights of a most-favored nation.

The Mayor not scared and demanded that an opinion from the City Attorney be obtained before the permit is revoked.

"I am not in favor of starting anything," said "The Hon."

MAYOR'S SURPRISES.

LIPPINCOTT ON PARK BOARD. The Mayor announced four appointments to vacancies on his commission yesterday. One of them, that of J. H. Lippincott as a member of the Park Commission, caused much

surprise, as it was regarded as a dangerous precedent to provide one man with two public offices of importance.

Lippincott is assistant engineer of the city and at a salary of \$1000 monthly and is supposed to require all his time for the duties there. If he is to become a member of the Park Commission and give proper attention to his duties there he must omit some of the work that he is paid to do at the aqueduct. This view is shared by some of the new Councilmen, though there is no reason to believe that the difference of opinion will prevent the prompt confirmation of Lippincott's name. The Mayor says he named Lippincott because he wants an engineer on the commission.

Some of the Councilmen wonder, however, why the Mayor could not find some one else. The other members of the Park Commission announced are former Judge Charles D. Silbert and Henry W. O'Malley, who resigns from the library board to take a new place.

W. C. Patterson, vice-president of the First National Bank, has been named to succeed O'Malley on the library board. The membership of that board is now thought to be in sympathy with the administration.

Frank H. Hines and I. E. Dockweiler representing the former regime, Dockweiler is president of it.

There is yet a place on the Fire Commission to fill and the Mayor may have this ready for the Council today. It will probably go to a Sixth Ward man.

POLICE SURGEON. COUNCIL IS IN DOUBT. The Council may appoint a new police surgeon today's session. It may not. The only thing sure is that it will abolish the double-headed office now filled by Drs. Quint and Garret. Whether an agreement can be reached that will give a majority of votes to any one of several candidates for the chief position to be created is doubtful. It is sought by Drs. Molony, agent of the Fire Commission; Nice, Decker, Zerling and Wyllie, and one or two dark horses.

An ordinance to be reported to the Council today will provide for the appointment of one police surgeon and two assistants and it seems sure that some of these new seeking the highest rank may be selected as subordinates. The chief position is to pay \$150 a month and the three subordinates ones \$80. There may be an effort to increase the number of assistants, as there is some doubt whether three will be enough. There are now six physicians including the two police surgeons, at the Receiving Hospital.

The council divided opinion as to whether the Council shall elect or give the appointing power for all positions except the police board or health board.

Moving Picture Demonstration. Because B. B. Colborne, agent for a portable asphalt laying machine, could not bring his five tons to the Board of Public Works to demonstrate its work, he has provided the Royal Theater pictures for \$2000, the money going to Colborne, who laid off the original mortgage of \$4000, and retained the balance of \$2000.

Judgment is asked against A. J. Gutzler, Margaret Gutzler and G. F. Sullivan, for the return of the \$1000 and a decree that the plaintiff is owner in fee simple of the property.

REAL ESTATE DEAL. WIDOW CHARGES FRAUD. Addie F. Morrison, who says she is a widow residing in Holden, Mo., and totally unacquainted with the late Charles F. Morrison, who died in Los Angeles, brought suit in the Superior Court yesterday against Fred C. Welke and Anna Imier Welke, to cancel a deed given by Welke to the latter.

It is alleged that the plaintiff gave Welke a power of attorney to dispose of her property, and that he used it to execute a deed to the latter, and that she learned of what she calls the fraud in the deed, and that she had received nothing as the proceeds of the sale. The value of the property as given in the petition is \$5000.

COURTHOUSE NOTES. BREVIETTES MISCELLANEOUS. SUIT FOR ACCOUNTS. Mrs. E. Lacey brought an action as administratrix of the estate of Rhodella Newman against John F. Newman, for an accounting of properties that are alleged to have been sold by the latter to the husband of the decedent. The Newmans were married in 1903, and the wife died three years later. It was agreed among them that all of the property owned by the pair at the time of the wedding, should be as tenants in common, and that the community property, it is set out that Newman has disposed of his late wife's interest in certain properties, and that he is charged to ascertain the amount and have it paid over to the estate.

INCORPORATIONS. Articles of incorporation were filed yesterday by the Southern California Bonanza Gold Mines Company, capital stock, \$200,000; Federal Electric Light and Power Company, capital stock, \$1,000,000; incorporators, William R. Russ, Lona M. Russ and Thomas R. Keefe; subscribed, \$200,000; Federal Electric Light and Power Company, capital stock, \$1,000,000; incorporators, F. S. Carr, D. R. Woods, E. Opp, Charles Menzies and C. H. Eubank; subscribed, \$25,000.

SUIT FOR BATTERY. Mary Kraucunas and John K. Kraucunas brought an action yesterday against Peter and William Dugan, for damages. It appears from the complaint that the parties had a row at a gathering held at No. 825 Broadway last night, the evening of November 7 last. It is alleged that the Dugans attempted to thrash John K. Kraucunas, and that when the electric light was turned on, they proceeded to knock her down and otherwise maltreat her.

ACTION AGAINST CITY. Horace S. Poutz, an oiler, is plaintiff in a suit brought against the city of Los Angeles and the Board of Public Works to cover \$12,000, alleged to be due on account of injuries received while at work on the electric line along the line of the Los Angeles aqueduct, near Independence, Inyo county, last fall. Negligence on the part of the city is claimed, by which Poutz had his left hand drawn into a space between the cable and wheels of the machinery, and that resulted in the loss of the hand. The claim was presented to the City Council and the Board of Public Works, and both bodies refused to pay.

SANTA MONICA ACCIDENT. On September 14, 1908, Mateo Rubio was

struck by a Hollywood car, at the intersection of Sixteenth street and Oregon avenue, in Santa Monica, and severely injured. Rubio claims that the accident occurred on account of the negligence of the employee of the Los Angeles Pacific Company, and yesterday brought an action to recover \$3500 as damages.

HEAVY DAMAGES WANTED. Sadie G. Persons, administratrix of the estate of Persons, who was killed by the Southern Pacific in the Superior Court yesterday for \$20,000 damages, for the death of Persons, which, it is alleged, was caused by the neglect of the defendant corporation, in striking the decedent while he was crossing Lemon station road, causing his death, September 24, 1909.

SUIT FOR INJURIES. James W. Smith brought suit against the Pacific Electric yesterday for \$20,595.35, on account of an accident that happened to his wife, Nellie E. Smith, by reason of a collision on the Alhambra road, between Los Angeles and Pasadena, July 25, 1909.

FOR ADOPTION. A petition was filed yesterday by Clarence B. Saunders, a divorcee, for the adoption of a child, born November 1, 1903. The child will hereafter be known as Ruby Bell Saunders, if the prayer of the petitioners is granted.

LUNACY CASES. Twelve unfortunate were before the lunacy commission in Judge Wilbur's court yesterday, and two were committed. E. E. Wood, the attorney who was taken into custody on the complaint of his brother, was released, as the charges were withdrawn. Justice J. Tilly, a resident of Burlington avenue, was ordered committed to Patton. It was alleged that Tilly was dangerous, and that he had attempted to kill his wife on several occasions, at one time trying to murder her by the administration of ether. J. K. Koken, a Japanese, was also committed.

FOUND GUILTY. In Judge Willis's court yesterday, Henri Prunzler was found guilty of criminal assault upon Edna Prunzler, a niece, on July 10 last. The jury spent about five minutes reaching a verdict.

HABEAS CORPUS ROUTE. An effort is being made to secure the release of James Ward, manager of the Ward Investment Company, who is charged with embezzling \$1000 the complainant being Alfred Silder. The writ is made returnable before Judge Davis Thursday. Ward, it is alleged, fled from the state after having been indicted on the old played-out fraud of furnishing bond for a job, the accused trying to square the matter afterward by paying the prosecuting witness an alleged note for the money that he lost in the transaction.

SMALL ESTATE DIVIDED. The will of Emily V. Keever, who died January 4 last, was filed for probate yesterday. It disposes of an estate of \$3000. Under its provisions \$1000 is bequeathed to Albert B. Bittman, Kan.; \$500 to Mary E. Bittman, Louisville, Ky.; \$1000 to Katherine E. Leonard, Thebes, Ala., and the balance of the property of every kind is divided among these beneficiaries, to be divided among them.

GRAND JURY WORK. The Grievance Committee of the grand jury was in session yesterday, probing the charges in connection with the administration of affairs of the Santa Monica High School district. The witnesses were H. M. Rebeck, superintendent of the school; R. F. Lee, janitor; Henry F. Cassidy, editor of the Santa Monica Herald; and others. The investigation grew out of the allegations that Rebeck had used for his personal purposes articles made by the pupils in the manual training school. The investigation was asked for by Rebeck.

HIT MAIL BOX FINE. Douglas Lee Rullison, who lives near San Luis Obispo, was fined \$25 by Judge Wellborn yesterday, upon pleading guilty to a charge of injuring a rural mail box. Rullison, 17, The United States District Attorney said he would have asked for a jail sentence and Rullison being older, the Federal statute imposes a maximum penalty of a \$1000 fine or three years in prison upon conviction of injuring a rural route or stage route. Rullison fired a shot at the box "just for fun," tearing a jagged hole through the side.

WOMAN SUES ESPEE. "Maud Lee, who alleges she was injured in an automobile accident last September by reason of the negligence of defendant's employes, brought suit for \$20,000 against the Southern Pacific Company yesterday in the United States Circuit Court. The complaint sets forth that the plaintiff was in a motor car driven by Dennis L. Persons, and that as it was about to cross a railroad track at Lemon station, a passenger train dashed into the car. The plaintiff says she was thrown out, sustaining severe injuries.

WIFE ABANDONMENT CHARGED. F. J. Watling and James Lavin, charged with wife abandonment, were arrested by Constable Rice yesterday and arraigned in Justice Pierce's court. The bonds were fixed at \$500. The complaints were sworn to by Mrs. Ellen J. Watling and Mrs. Mary Lavin, who allege their respective husbands have refused to support them and have failed to supply them even with food.

SAYS WASN'T SMOKING. Tom Krestovitch, the first smoker arrested under the new ordinance, which provides that there shall be no smoking on the rear seats only, now says he was not smoking. He pleaded not guilty yesterday morning. Justice Frederickson and his trial was set forward to 10 o'clock tomorrow morning.

PARDONED SO HE CAN MARRY. The Governor yesterday afternoon issued a full pardon to Clarence Dewitt, who was convicted in this city several years ago on a charge of rape. He has been out of the State Prison since 1903 on parole. The pardon was issued by the Governor for the purpose of giving Dewitt an opportunity to get married. He lives in Los Angeles.

NOT GUILTY, THEY SAY. Dr. Charles Carlton and Miss Kathryn Palmer, his assistant, who are under indictment upon a charge of illegal use of the mails, pleaded not guilty in the Superior Court yesterday. Their cases will be set for trial at a later date.

NEW JUSTICE NAMED. H. P. Rogers, justice of the peace of Ballona township, tendered his resignation yesterday to the Board of Supervisors. W. A. Renne was yesterday appointed to fill the vacancy. The resignation of Constable Ostrat, of Puente township, was accepted and Gratian Hildart appointed to the vacancy.

ADMITTED TO THE BAR. W. H. Thomas of Santa Ana and Morris M. Ferguson of this city, were admitted to the bar yesterday, in the Second District Court of Appeal.

The Equitable Plan

Savings Accounts Without Interest Forfeiture

—If you are a savings bank depositor under the old plan, you have doubtless been in the position many times when it would have been worth considerable money to YOU to have been able to get your savings deposit without either having to wait on a long withdrawal notice, or forfeit your interest.

—The EQUITABLE PLAN is designed to protect you against the inconveniences and losses. Under normal conditions, your money is yours for the asking, with interest to the first of the month in which you withdraw.

—Just think it over and you will appreciate how valuable the EQUITABLE PLAN is to the depositor.

ON THE HIGHWAY WORK. Commission Recommendations Acceptance of Bids, and Promotions and Increase in the Wage Scale.

The County Highway Commission yesterday recommended the acceptance of a bid of \$28,657 made by F. P. Prendergast for improvements on Slauison, Compton and Florence avenues.

Recommendations for the promotion of several men in the engineering service, and an increased scale of wages, were also filed with the Board of Supervisors.

The changes suggested are as follows: Pay of E. S. Bittman, Walter Moore, Jr., W. W. Morgan and E. A. Marsh, instrument men, to be raised from \$3 a day to \$6 per month; G. W. Jones, levelman at \$110, to surveyor at \$125 per month; C. G. Kolster, surveyor at \$125, to assistant engineer at \$145 per month; C. N. Wright, draftsman, from \$100 to \$135; T. D. Hodges, from \$100 to \$120, and J. D. Moffat from \$100 to \$120 per month.

The commission further advised the acceptance of the bridges on Long Beach boulevard, recently completed by the Mercereau Bridge and Construction Company.

FOR FORTIFICATIONS SITE. In the recommendations of the Appropriations Committee for fortifications, submitted to the House of Representatives, yesterday, it is supposed an item for the purchase of land at San Pedro was included. Lient. Leeds submitted his report to the War Department some time ago. He declined to state what his recommendations were until the whole matter is aired in Congress. It is believed the government may bring condemnation proceedings against the land wanted for a fortification site.

COLLECTOR NEEDS MONEY. C. E. Potts, a collector of this city, filed a petition in bankruptcy in the United States District Court yesterday. His estate is valued at \$4000, and assets, including an insurance policy, \$2185.

Growth of Siberia.

The population of Siberia, January 1, 1906, was 8,740,000, about the same as that of Canada. Only 8 per cent of the population live in cities, the largest city, Tomsk, having 53,533 inhabitants. That Siberia is not reserved for those who are criminals under the Russian law is indicated by the fact that in 1907 over 500,000 persons emigrated there from European Russia. The Trans-Siberian Railroad, on which \$172,525,000 has been expended, extends 6677 miles from St. Petersburg to Vladivostok 1072 miles of this through Chinese territory. Business on this road has greatly increased since the war with Japan, it is becoming one of the great highways of commerce. The growth of Siberia and especially the improvement in the transportation facilities of the Siberian Railroad are among the guarantees that Japan will not be disposed to war.—(Detroit Free Press.)

ACTRESS SHOWS MUSHY LETTERS.

HONEY DRIPS FROM HEART OF MILLIONAIRE SUITOR.

Pretty Bessie Devoe Makes Public Alleged Outpourings of Love for Rich Man's Son in Her Damage Claim for Breach of Promise of Marriage—Gould Will File Answer.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Jan. 10.—[Exclusive Dispatch.] With a day or two it is expected that Frank J. Gould's attorney will file his answer to the suit of Bessie Devoe, the actress and dancer, for \$250,000 damages for alleged fraud and misrepresentation in connection with a promise of marriage said to have been made to her by him. More of his letters to the actress were given out today. Following are some extracts from them:

"Miss you, Bessie, so much, and wish you were here. Hope your cold is better. There is nothing new to you think me. How I wish you were here, but I send you all my love and kisses."

"The first thing I did on landing was to go to the Western Union office and inquire if there were any letters, but there were none. Please be good, Bessie, and write me, for it means so much to me to know that you think me. How I wish you were here, though, perhaps, you would not enjoy it. I feel so very much happier than I did since I saw you, and know how you felt. I send you all my love and I mean to do everything to hold yours eternally."

"Dearest Bessie: Just a line. Stopped to see if there was a note for me, but was disappointed. Am worried about you and know how you felt. I send you all my love and I mean to do everything to hold yours eternally."

MUSIC AND STAGE.

(Continued from Fifth Page.)

monologue, as does Miss Stella A. Morriston and her leaping Siberian bounds. Harry Fox and the Miller sisters are still sporting in their musical nonsensicalities.

Edna Lorimer White, who will be the new prima donna of the Peris Hartman company, arrived in Los Angeles from New York City last night. Miss White is of the distinctly brunette type, possessing much physical beauty and a rich soprano voice, and comes to the Hartman company with experience in both comic opera and musical comedy. Miss White commenced rehearsals with the company yesterday morning for the production of "Woodland," which will be given at the Grand Opera-house next Sunday afternoon, and in which she will make her first appearance in the role of Prince Eagle.

A version of the "Passion Play," written by Rev. J. A. J. Kraus, a Franciscan friar of this State, will be presented here at the Auditorium during the week of March 13.

Although Carlotto and her carload of stage apparatus arrived in Los Angeles yesterday as previously announced, she was unable to give her loop-the-loop exhibition yesterday afternoon, owing to the fact that the roof of the stage of the Los Angeles Theater is too low to allow the incline on which she receives the start for her daring act, to be set up. The management of the theater summoned a large force of carpenters, who immediately began tearing a large hole in the roof of the stage, and last night Carlotto succeeded in presenting her act by starting from the roof. The new bill also contains six other new acts.

De Mille and Belasco's famous comedy drama, "Men and Women," will be revived at the Burbank next week. "The Chapone" being postponed until the week following. This change in announced plans was made necessary because of an error in expressing the parts, not all of which have arrived here from New York. "Men and Women" was, perhaps, the first play of American authorship in which American finance was utilized in its dramatic aspect, one of the scenes showing a midnight meeting of the directors of a big New York City bank. The cast is unusually long and a number of players not regularly employed at the Burbank will be seen in this play.

Miss Eleanor Kent, the Pola in John Cort's revival of "King Dodo," at the Majestic this week, will be a guest of the Women's Press Club this afternoon, when the club entertains at the home of Mrs. D. C. McCann, in honor of John Vance Cheney. Miss Kent, who is a composer of notes, will sing two or three of her own songs.

H. P. Hill, one of the best-known advance men in the business, and whose last previous visit to Los Angeles was made in the interests of "The Burgomaster," is in the city preparing the way for the arrival of "The Burgomaster," at the Majestic Theater. The piece has been revised since it was last seen here, the comedy having been strengthened for the purpose of exploiting the fun-making abilities of Richard P. Carroll and Gus Weinburg, who are being featured in it.

Mme. Frieda Langendorf will be heard in recital at Simpson Auditorium tonight. Her programme will include masterpieces by Schubert, Schumann, Brahms, Strauss, Wagner, Salter, MacDermid, Hammond and Henschel.

DEATH CLAIMS CHIEF CHARLOT.

Great Christian Leader of Flathead Indians Dies at 80 Years—Lived Noble Life.

[BY DIRECT WIRE TO THE TIMES.]

BUTTE (Mont.) Jan. 10.—[Exclusive Dispatch.] Chief, aged 80, hereditary chief of the Flathead nation and the last of the great chiefs of the tribe, died today at his home at Arlee, according to word tonight from Indian Superintendent Morgan of the Flathead agency. Chief was wealthy and his land holdings occupied a commanding and picturesque position on the shore of Flathead Lake. Chief negotiated all the early treaties whereby Jesuit missions were established and peace secured all paleface travelers in the lands of the Flatheads.

The old chief never lost an opportunity of advancing the cause of Christianity, and through him a delegation of five Flathead subchiefs were dispatched to St. Louis to bring results to the Flathead nation and instruct the Indians in Christianity. The first attempts at farming in Montana were made by Flatheads under the direction of Chief Charlot and those who labored with him. Missions stood at St. Mary's and St. Ignace today as monuments to the Flathead chief.

When the New Percos, under Chief Joseph, left Idaho, making their way to a trail of blood, Chief Charlot was ready with the Flatheads to halt the New Percos if they showed any disposition to do anything in the vicinity of the Flathead country, but the New Percos avoided any attacks upon settlers in the lands of Chief Charlot.

Writes of Own Suicide.

[BY DIRECT WIRE TO THE TIMES.]

PITTSBURGH (Pa.) Jan. 10.—[Exclusive Dispatch.] Angered at an alleged offer on the part of the defaulting church official, William C. Lilly, to pass himself off on them as a suicide in Kansas City, the trustees of the Pittsburgh presbytery held a warm meeting here this evening and it was finally decided to get Lilly, whether living or dead.

It was one of the stormiest sessions the trustees ever held. For a full hour after the meeting adjourned, ministers and laymen remained in the church hall apologizing to each other. At one time during the meeting it looked as if they would come to blows. The discussion was to turn the matter over to the attorney, who would be instructed to search Chicago, as Lilly is understood to have been there within the past three days, having gone to Chicago from Kansas City December 2.

It was also decided to attempt legal action against Kansas City brothers of the alleged defaulter to collect at least \$25,000. It is claimed the brothers assisted in hiding him.

A letter written by a disguised hand, which the trustees unanimously decided was Lilly's writing, was received containing a newspaper clipping of the death by suicide of a man in Kansas City, December 18. The writer was satisfied the man dead was William C. Lilly, formerly of Pittsburgh.

UPHOLDS COMMISSION'S POWER.

United States Supreme Court Decides That Body Can Regulate Distribution of Coal Cars.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, Jan. 10.—The United States Supreme Court handed down a decision sustaining the power of the Interstate Commerce Commission to regulate the distribution of railroad cars among coal companies.

Railways operating in Illinois were the complainants. The decision is regarded by the government as most important, and it is expected to have an important bearing on rate cases.

In announcing the decision, Justice White considered two objections to the delegation of power to the commission, the first being that no such delegation had been made by the Interstate Commerce law in the matter of the distribution of company fuel cars, and second, that the order enjoined by the court below was beyond the authority conferred by the law.

The first objection, he said, rested on the erroneous assumption that commerce, in the constitutional sense, embraced only shipment in a technical sense.

"It may not be doubted," he said, "that the equipment of a railroad company operated in interstate commerce, included in which are its coal cars, are instruments of such com-

Uninvited, a room above the garage and appeared in excellent spirits just prior to his departure. Sunday afternoon he was smiling and cheerfully volunteered to assist employees of the Hanning household in their daily work.

Last Sunday night the Japanese carefully sealed up all ventilating pipes and windows, brought out a charcoal burner and burned the stoves into the room. The man evidently lay down and coolly awaited the inevitable, leaving no room for explanation.

Other Japanese who were acquainted with the man, however, had a somewhat different disposition, but had been known to complain that he was not happy in this country.

mate creature of the air than like the noise of an engine.

One is surprised at the flight, however. It is so close to the ground. You instinctively expect it to rise like a balloon; but it skims the ground higher than fifty to sixty feet, like a bird of prey. Sometimes it seems a bird of prey looking for a victim, and you expect it to suddenly swoop down.

Filled with such reflections as Cullen took his first flight yesterday, the people of the town were not the least called back to earth by an incident.

Paulhan, the French aviator, made his appearance with all the dramatic effect which comes instinctively to his race.

BIRD AND DRIGIBLES.

The drigibles had been called into the arena.

Two enormous cigar-shaped bladders, jaundiced and apparently suffering from liver trouble, were tossed into the field.

The one driven by Beachy first took flight. It rose slowly into the air with

Torn from Face.

Office of The Times, No. 25 E. Raymond Ave.
PASADENA, Jan. 11.—A party of twenty-seven gay and festive fishermen, members of the Tuna Club of Santa Catalina Island, gathered around the banquet table at the Hotel Raymond last night. The occasion was the third of the winter monthly gatherings of the club, inaugurated to keep up a lively interest in the association.

The enticed absence of C. G. Cohn of Elizabeth, Ind., proved a disappointment. He has just returned from a successful fishing trip in the Gulf of California, where, he states, he discovered the southern home of the tuna. He is suffering from a severe attack of grip.

Following a delightful dinner, a "few apt remarks on fish and how to catch them" were made by the president, Charles F. Holder. Other "remarkable experiences" in chasing the elusive tuna and other fish were related by B. O. Kendall, Frank Rider, John Stearns and Thomas McD. Potter. Others present: Dr. P. Streeter, William F. Knight, E. L. Doran, H. O. Phillips, S. A. Barton, George F. Cary, Henry Newby, H. Lowenthal, Walter Raymond, Dr. R. C. Harrison, D. N. Rotherham, E. L. Hedderly, R. P. B. Shaver, S. L. Parsons, C. V. Barton, R. W. Kinney, Max Lowenthal, J. N. Broder, George A. Weber and Mr. Chandler.

HUMANE SOCIETY WORK.

Humane Society work received an impetus last night at an interesting meeting held in the parlors of Hotel Maryland. Following a dinner in the rose room, given by the members of the local society to the directors of the State Humane Society, Secretary Matthew McCurtie of San Francisco exhibited 110 stereoscopic slides. The first picture was that of Richard Martin, founder of the first society for the protection of animals, who introduced the Martin act in the British Parliament, July 22, 1822. The next was that of Henry Berg, who founded the society in America, April 28, 1826. Dr. Emily of the Pasadena Audubon Society exhibited a number of slides illustrating the work being done among the birds.

Interesting talks were given by Dr. Leslie Learned, Dr. May S. Hughes, Dr. M. J. McLeod and Dr. John Willis Baer.

Included in the dinner party were N. W. Zimmer, Mrs. W. V. Walden, Lloyd Macy, Mr. and Mrs. Watterman, Dr. and Mrs. Grindell, Dr. E. L. Conner, Miss Mary Stewart, Mrs. and Mrs. Hepburn, Mr. and Mrs. Giam, Mr. and Mrs. Stoughton and Tom Noble.

ANNUAL MEETINGS.

At an annual meeting of the Children's Training Society yesterday, the old officers were re-elected. Dr. Francis F. Rowland, president; Mrs. Austin, secretary and Mrs. F. N. Parker, treasurer. The directors are Mrs. William Stanton, Mrs. Gertrude Mason, Miss Emily Mason, Mrs. Kelley and Mrs. E. M. Ward.

TWO ARE INJURED.

Water M. Williams, a driver for the Pasadena Milling Company was injured yesterday afternoon by being thrown between runaway horses which he was driving. The horses, which were above the animals and was crossing the Santa Fe Railroad tracks when the wheels of an oncoming street car entered them. They started to run and Williams was thrown forward. He was afterward picked up by a horse-drawn ambulance and taken to the Receiving Hospital, where his injuries were treated. He received a broken arm and "a hurt internally."

Charles H. Ward, 17 years old, employed at the Lee Garage Company, was injured yesterday while trying to crank an automobile. The engine kicked back and threw the boy against the machine, tearing some of the skin from his face. He was taken to the Receiving Hospital, where, without anesthesia, Police Surgeon McCoy took the stitches.

AVIATION INTEREST.

The Board of Trade has secured a large number of tickets for Pasadena Day at Aviation Park. Indications are that there will be a large number of people from here. Arrangements have been made for through cars to Dominguez.

SOCIETY EVENTS.

Mrs. Benjamin P. and Miss Blakes entertained the Monday Afternoon Club at their home, No. 214 West California street, yesterday afternoon. Much interest is being taken in the preparation for the production of the light opera, "The Fortune Teller," which will be given by local talent on the 27th and 28th insts. under the auspices of the Men's Club of All Saints' Church, at the Pasadena Operahouse. One of the directors of the production of the season was the afternoon tea given yesterday afternoon by Mrs. James H. McBride at her home, No. 400 Bellfountain street, in honor of Mrs. Heber Passmore and Mrs. Harrison of Minneapolis. Mrs. Harrison is spending the winter with Mr. Bennett in Grand avenue. There were eighty city women present.

A grand ball will be given on Wednesday evening at the Hotel Green. Invitations have been issued to 450 prominent society people of Pasadena and Los Angeles, in addition to the regular guests of the Green.

The Travel Club of the Y.M.C.A. was enthusiastically entertained last night by Miss Julia Meeker, who gave a talk on "Venice."

SANTA MONICA.

VOLUMINOUS IS REPORT.

COUNCIL CONSIDERS FREMONT AVENUE MATTER.

Prepares to Take One More Step Toward Opening It Up and Converting It Into a Link of an Air Line Boulevard from the Seaside to Los Angeles.

SANTA MONICA, Jan. 10.—The City Council tonight prepared to take one more step toward the opening of Fremont avenue and its conversion into a link of an air-line boulevard leading from the seaside to Los Angeles. It received the report of Commissioners Boehme, Wilson and Quandt, who were appointed to make an assessment of the benefits and damages likely to result to property within the zone affected by the proposed improvement.

The report, which is voluminous, estimates the total damages as \$14,000. The detailed work of the commissioners will be considered by the Council Wednesday night.

REPORT IS FILED.

The City Council tonight received the report of the special Arbitration Committee named some months ago for the purpose of conferring with Lycurgus in fixing a price to be paid for his 400 feet of ocean frontage. The report was to the effect that the committee had agreed upon a price of \$400 per front foot. The appointment of the committee was made at the suggestion of Lindsay, who named three of its members, and he agreed to be governed in the sale of the property to the city by the price to be recommended. Consideration of the matter by the Council was taken upon the petition of a large number of property owners who believe they should own the sand between the broad walk and the sea. Before the city can acquire this property and thus prevent its occupancy by private buildings it will be necessary to vote a bond issue of a third of a million dollars. The Council tonight took no other action than to order the filing of the report.

SUNDAY CLOSING.

In his message to the new Council Mayor Dudley recommended the adoption of an ordinance closing all saloons and wholesale liquor houses from midnight Saturday until noon Sunday. The Council considered the ordinance in secret session and tonight laid it on the table. The Sunday-closing question is one of the matters which will be taken up by the Good Government League, to be organized next week. It will also ask the adoption of an anti-treating ordinance.

NEW DRINKING FOUNTAINS.

Ideal Places in Pomona for Persons, Horses and Dogs to Relieve Thirst—Improvements.

POMONA, Jan. 10.—The three new steel drinking fountains built for the city by the Llewellyn Iron Works of Los Angeles are now in place, one near the City Hall, one at South Park avenue and Second street, and one on North Main street. They provide drinking places for persons, horses and dogs and are sanitary.

The City Trustees have ordered sign boards erected at the corners of all principal thoroughfares the outlying districts of Pomona. E. H. Sleeper has been appointed City Engineer, vice W. H. Coates, resigned, at a salary of \$12 a month. The matter of the purchase of a fire hose for the substitution at North Main street is being considered by the local fire wardens.

This afternoon, at the home of Mrs. G. A. Lathrop on Holt avenue, Dr. F. E. Spaulding of Pomona College delivered a lecture on "Shakespeare" before members of the Shakespeare Club and invited guests.

The Women's Working Chapter of Pilgrim Congregational Church has elected: Mrs. M. St. Pierre, president; Mrs. H. A. Mitchell, vice-president; Miss Maria F. Ellis, secretary; Mrs. F. C. Ellis, treasurer; Mrs. J. B. Garcelon, Dolis and Miss Jurchard, chairman of city sections. Resolutions of intention have been passed by the City Trustees for the improvement of East Eighth street, between West Third street and, for the extension of a sewer system on a portion of Palomares street.

The funeral of the late Henry Gibson, who will depart from here tomorrow while riding a bicycle to Claremont, was held yesterday afternoon. Interment was in Pomona Cemetery.

Chamberlain's Cough Remedy never disappoints those who use it for obtaining relief from colds, coughs, croup, whooping cough, and all other ailments of the throat and lungs. It stands unrivaled as a remedy for all throat and lung diseases.—ADV.

PECULIAR ACCIDENT.

New Health Officer Appointed.
Iowa Man Will Arrive Shortly to
Take Up Presbyterian Charge—
Announcement Election Carries Easily.
Y.M.C.A. Annual Meeting.

LONG BEACH, Jan. 10.—Manuel Romero, a Spaniard, 50 years of age, who has lived near the city for many years, was the victim of a peculiar accident, which came near proving fatal. Romero, who is a foreman on the George Bixby ranch, was showing his young sons how to plow, and had the reins about his neck. Suddenly the clevis, holding the whiffletree, gave way by the dropping of a bolt. The horse plunged forward, and Romero was jerked twenty feet into the air. His head struck against the plow, tearing loss from the jawbone his lower lip and all the flesh on his chin. In addition his neck was badly wrenched. He was hurried to the city where medical attention was given.

NEW HEALTH OFFICER. Dr. W. H. Newman has been elected city health officer, succeeding Dr. W. H. Jones, who held the post six years. An inspector will be chosen tomorrow and Dr. R. R. Harvey is secretary of the board.

Rev. O. H. L. Mason of Boone, Iowa, has accepted the call from the First Presbyterian Church to become pastor and will arrive here about February 1.

Laura Ostrom, aged 70 years, died suddenly last night of neuritis of the heart, due to acute indigestion. She lived here a year. A sister, Mrs. Weeks, dwells in Los Angeles.

BONES ARE WIRRED.

E. G. Lowe, aged 40 years, employed at the Sunset oil refinery at Ojai, was found unconscious late last night at the foot of a fifteen-foot ladder, from which he fell three hours before. He sustained bad bruises, cuts, and a fracture of the right wrist. The lower end of the radius was split, requiring the unusual operation of wiring the bones together.

At the annual meeting of the Y.M.C.A. tonight Judge Curtis D. Wilbur of Los Angeles delivered an address on "Challenged Children."

The dilke arched plant broke last night, causing a small overflow of mud and water into the harbor channel. The break was repaired today.

Walter F. Hodges, a young artist, died last night at his home in Abilene, Tex. He was 28 years of age, and was a native of New Jersey. He lived in Pasadena until six months ago. He was buried in the city.

J. E. Ward received word today that he has been granted a patent on an oil-purifying machine, which is already in operation in this city and Los Angeles. The factory will be in Los Angeles.

WOMAN PAINTS IN PLUNGE.

Mrs. Anna Folson, while bathing in the plunge this morning, fainted and sank in six feet of water. Guard Goodwin dived for her and got her to the edge of the pool, where further assistance was given and the woman revived.

In order to give the school children a chance to see the airship in action at Dominguez, the Board of Education today ordered two half holidays, one this week and the other next. The dates will be fixed tomorrow.

EXTENDS TERRITORY.

Only a light vote was cast today for the annexation of three square miles of territory north of Long Beach. The vote resulted in the city, 28 for and 23 against. In the territory, the vote was practically unanimous for annexation.

Tomorrow the City Council will meet to consider the annexation of territory north of Long Beach. The vote resulted in the city, 28 for and 23 against. In the territory, the vote was practically unanimous for annexation.

Grading work on the Long Beach-Los Angeles boulevard was resumed today. The local Sunday-school union has invited the Los Angeles county Sunday-school convention to meet here March 2, 3, and 4.

Rain started at 5:45 o'clock p.m.

SOUTH PASADENA.

Revere, vice-commodore; Capt. J. E. Matheis, rear-commodore; and Capt. O. I. Danielson, fleet captain.

CLAREMONT.

CLAREMONT, Jan. 10.—Within ten days the grading for the Pacific Electric Railway will be completed through here; then the rails will be laid, connecting this city with the city of Los Angeles. The Pomona right-of-way committee has effected a compromise with the orange groves at North Pomona, through which groves the line must pass. It was agreed that the line will be laid with the exception of one ranch. When this is adjusted there will be nothing to hinder the completion of the main line to Covina.

HAS WATER PROBLEM.
Shall It Be Municipal Ownership or
Not? Asks Sierra Madre—There's
Something in It.

SIERRA MADRE, Jan. 10.—Interest is shown in the question of municipal ownership of the water system. The present company was organized years ago by the ranchers of this section and water supplied for irrigation purposes, on a pro rata basis according to the amount of stock held. Since incorporation many orchards have been planted and the water stock has changed hands. The feeling seems to be almost unanimous that the city should acquire the system, but the stumbling block seems to be in the arrangements that should make for the protection of those who still have orchards and do not wish to subsidize. Some who hold large blocks of stock will oppose the proposition unless provision is made to supply them with water for irrigation purposes, as long as they desire to retain their orchards. The city has no right to force them into municipal ownership unless they receive the same benefits which have been accorded them as shareholders.

A joint meeting of a committee from the water company and the City Trusts was held recently. The value of the water plant was placed at \$96,000. To acquire this by the city will necessitate a bond issue of \$100,000, giving a working capital of \$4000. A meeting of the stockholders has been called for the purpose of deciding whether the plant shall be sold for this sum. Should the proposition carry, it will not be put before the taxpayers for their approval of a bond issue. The water company has a bond indebtedness of \$7,000. Computing the value of the plant to the city at \$96,000 would leave \$89,000 to be divided among the shareholders, or nearly \$18 per share, there being 5000 shares. Prof. Robert J. Buchanan of Berkeley has arranged to deliver a lecture on the water problem of the city, with stereoscopic views, at the Woman's Club House on the 13th inst. It will be for the benefit of the Knights of King Arthur Boys Club of this place, an unsectarian organization of the younger lads, who are desirous of equipping a museum in their club-house.

FRUIT IS SAVED.

Sawtelle Health Officer Retains Remains of Peas Which Were on Table at Fatal Dinner.

SAWTELLE, Jan. 10.—G. A. Field, City Health Officer, is in charge of the fruit that remained in the jar after the dozen descendants of the Vudels had partaken of their dinner of death on the first Sunday of the year. He will in a few days open a can of the peas, which were Campbell's, of the Coroner's office, shall have made a finding on that portion of the canned peas which was taken by him. The latter was making a chemical analysis for the purpose of determining with positiveness the nature of the poison. The Coroner, the health officer and the physicians who were called into the case, are cooperating.

It is the purpose to send the remaining portion of the fruit to expert chemists with a view to giving to the medical world at large whatever of benefit may be derived from the examination of the peas.

The matter of making the chemical analyses may be passed along to the state health department, which is one of the colleges supported by the State, but the purpose is to have whatever is done carried out with thoroughness.

CHIEF DISHMAN FINED.

Hollywood Justice Offers to Let Him Off, But He Says He Will Take His Medicine.

HOLLYWOOD, Jan. 10.—Chief of Police Dishman appeared before Justice Herndon of Hollywood today and paid a fine of \$10 for exceeding the speed limit. Motorist Patrolman Blinn of the Hollywood force testified that Dishman was driving an automobile faster than the limit of an hour, while the Hollywood ordinance makes the limit fifteen miles per hour.

Justice Herndon offered to dismiss the case against Dishman, but the latter said he would take his medicine.

VENICE. VENICE, Jan. 10.—H. C. Rogers has tendered his resignation as Justice of the Peace for Ballona township and will remove to San Francisco. William A. Dennis has been appointed to the office.

QUEER CASES DECIDED BY ENGLISH COURTS.

(SPECIAL CORRESPONDENCE OF THE TIMES.) LONDON, Dec. 19.—Every now and again a case crops up in the English law courts which illustrates how the law of this country is a gradual growth out of decisions and precedents and how far divorced from common sense it often is. One of these which has just been decided by the Court of Appeals will probably form a precedent for many years to come.

Somewhere in the west of England, a farmer owned a field and a vicar owned a house. The field lay beside the railway station and for years it has been the custom of the people in the neighborhood to cross it as a short cut going to or from the station. People also used it as a short cut to the farm, and the vicar was annoyed. The farmer never objected but the vicar had not been long to constitute the vicar a nuisance. The vicar was annoyed and the farmer was annoyed. The vicar was annoyed and the farmer was annoyed. The vicar was annoyed and the farmer was annoyed.

Under a similar decision a dog in England has the right to be killed if it is not in its owner's charge. The theory is that an owner cannot know his dog is vicious until he has actually bitten some one, and that as far as the dog is concerned it is his owner's duty to keep him from doing so. If he bites again he may fairly be assumed to be dangerous and he may be killed.

The House of Lords solemnly decided some time ago that a man in England had the right to cross a road. The case arose out of an accident to a cyclist who had been riding on a road which had been closed to him. The cyclist sued the owner of the road, and his case was taken up by a cycling association. The lower court gave him damages on the theory that the road was a public highway and that the cyclist had a right to cross it. The House of Lords decided that the road was a private road and that the cyclist had no right to cross it.

Theater tomorrow evening, under the direction of H. Roosevelt Shryock. All the players are local, with the exception of twelve, engaged from San Bernardino, Redlands and Highland. The orchestra selections include some of the shorter and brighter numbers of the symphonic repertoire: Mozart's "Magic Flute" overture, Schubert's B minor symphony, and the march from "Caucasian Sketches," by Ippolitow Ivanow. Two Grieg numbers will be played by the string orchestra.

HARBOR HOME SITES

Millside Tract—WILMINGTON

Have you been down to Wilmington recently and noted the transformation that is fast taking place in the new harbor of Los Angeles? The hum of new life and industry here is making a very audible sound. Do you know that the largest lumber mills in the Southwest are located on the water front of Wilmington, within a short walk of "Millside Tract"? That these mills now employ several hundred people who can find no homes nearby to live in? The industrial development is going ahead of the residential development—consequently there is a crying need now for homes to live in.

An \$800 Profit to Be Made Here on a \$1000 Investment

For \$1000, only one-third of which need be cash, you can buy property in "Millside Tract" 120x135 and 120x125. One of these pieces will cut into three lots. On each of these lots inexpensive houses can be built for about \$650 each, which would bring you in a monthly rental of \$12.50, or \$37.50 for three such houses. Or the three lots can be sold as they are for at least \$600 TODAY—bringing every buyer an immediate profit of \$800. What more need we say? Because "Millside Tract" is close to the mills, to the Pacific Electric cars and to the business part of Wilmington, it is the most desirable property in Wilmington today for homes. We are making you a proposition you should consider seriously, but you will have to act quickly.
